

PICKING THE PRESIDENT

East vs. West may be the political issue, before the candidates of the two big parties square away for the 1920 race, and with the reconstruction period offering so many sharp angles for party planks. Senator William E. Borah of Idaho, has taken a stand on international affairs which might make him a candidate on the Republican ticket should the western and progressive wings rule the convention. On the Democratic ticket, Governor Alfred E. Smith of New York has been mentioned as one of the strong men of the east, in "favorite son" rankings.

GROWING CERTIFIED POTATOES PROFITABLE.

It pays to grow certified seed potatoes. Better quality, yield and price are received. It is profitable even to try for certification if the requirements are followed, because the more careful selection of seed, use of un-

diseased ground, seed treatment, spraying of plants, and care in harvesting will give a bigger and better crop. Only 12 farmers in all of Oregon grew certified potatoes last year. Those who want to try this year may get free blanks with bulletin on potato certification by writing to the Agricultural College at Corvallis.

(List of Claims Continued from Page 2.)

State of Oregon, County of Harney, ss:
I, Chester Dalton, County Clerk in and for the County and State aforesaid, hereby certify that the foregoing is a correct copy of the bills allowed at the April and May 1919 Terms of the County Court.
CHESTER DALTON,
County Clerk.

WAY OPEN TO GROWING CERTIFIED SEED SPUDS.

A way to grow certified, disease-free, standard-type seed potatoes, is open to Oregon farmers. By use of good seed and directed cultural practices, with inspection by potato specialist, seed will be certified for the benefit of the producer and also of the grower who wants to grow the best quality of potatoes.

The 1918 list of certified seed growers has been issued by the Oregon Agricultural College, and free copies may be had on application. It was written by M. B. McKay, inspector and associate plant pathologist. It tells the how and why of certification and gives information on making application for entry in the 1919 season.

IMPORTANT TO HORSEMEN!

Smith Crane has changed the date of shipment of horses consigned to the Range Horse Sale from June 8 to June 6. This is for the benefit of horsemen, in order to place the stock in good pasture close to market to freshen up and rest before entering the market pens.

To Range Horse Raisers

Special Horse Train Leaves Crane, Oregon on June 6

Fair prices are expected, and we would like the support of the Eastern and Central Oregon horse raisers in order to establish a good market for the range horses.

We have had Billy Walker in the southeastern states for the past several weeks and will keep him among the buyers during the month of May. He has the promise for many good buyers for our first sale.

As horses will be mostly purchased by southern buyers, would advise shipping fillies and mares aged from four to six, weighing from 1050 to 1300 lbs.

As I have had several years experience and association with southern buyers, I believe I have an opportunity to make some of the best possible sales for Harney County horse raisers for the present season. Will come to your ranches and cut your horses to best selling sort. Phone, write or see me for further particulars, as all consignments should be in by June 1 on account of ordering the necessary cars.

Smith Crane, Burns, Oregon
