PRODUCE MERCHANT GAINS 20 POUNDS

Is Also Relieved of Rheumatism Through Taking Course of Tanlac.

"I not only gained thirty pounds on a few bottles of Tanlac but can do more work than I have been able to do at any time in the last ten years," said C. B. Gwin, a well-known produce merchant of Amory, Miss.

"For a long time my system was debilitated," he continued, "and my digestion out of order so I could hardly eat a thing. I suffered from awful headaches, my nerves were on a strain and my muscles felt like they were tied into knots with rheumatism; I lost weight and got weaker every day."

"I was induced to try Tanlac by a friend and it is making a new man of me. I now eat and sleep better than I have in years, my rheumatism is all gone and I feel stronger and better than I have in a long time."

Miss Helen Thompson was in the city during the week visiting with friends. The young lady was formerly a student of the Harney County High School but has been attending school at Boise since and later held a position in that city, returning to her home near Waverly only recently.

Mrs. S. Michaels, a sister of Manager Nate Franklin, of the Farmers Exchange, arrived in this city this week to visit with her brother and his wife for a short time. Mrs. Michaels' home is in San Francisco, but she has been visiting in several of the cities of the northwest and came in this way for a short time before returning to her California home.

Sheriff Goodman and James Shepard went to Salem last Sunday. This would seem rather significant if no other explanation were made but the fact is Jim had not been committed to any of the state institutions, having broken no laws and being perfectly sane. They happened to be the delegates named by Harney Lodge No. 77, I. O. O. F. to attend the Grand Lodge which met in the capital city.

A recent letter from Leonard Locher received by his sister, Mrs. A. R. Olson, states he was successful in his examination for a higher position in the U. S. navy and is now a Chief Machinist. He spent a time in Southern waters after leaving here a few months ago when home on a furlough, but his ship was ordered from Cuba to duty between this country and Europe as one of the aids in the recent air flights across from that country. Much has been written about this flight in the paper during the past few days.

HAYAKAWA OBJECTS TO SPY ROLE IN PARAMOUNT PICTURE

Changes His Mind When He Finds He is Supposed to Be Working for United States

Apparently the Japanese take pictures far more seriously than do Americans; at least that would be the assumption from Sessue Hayakawa's statement that his performance in "The Cheat," a former Paramount picture which rendered the Oriental actor extremely popular with American playgoers, made him unpopular with some of his countrymen.

This fact was developed recently when Sessue Hayakawa asked Director William C. De Mille what the nature of his role would be in "The Secret Game," which is his latest Paramount picture.

"A Japanese spy," answered Mr. De Mille.

"Nothing doing!" said the Nipponese firmly. "I can't afford to take another chance of making myself unpopular with my countrymen as I did with some of them when I played in 'The Cheat.'"

"But," explained the other, "you are supposed to be working for the American government this time."

"Fine!" exclaimed Hayakawa, "that makes it all right."

Those who have noted Japanese spectators at a picture show say that they watch with the closest attention, drinking in every detail and are apparently much impressed, not only by the story, but by the individual actor. Naturally their interest in the work of one of their countrymen would be intense and so it is probable that they accepted the role of Hayakawa in the former production as actual, in some instances at any rate.

Hayakawa, who pursued part of his studies at the University of Chicago and admires the people in the land of his adoption, still holds a strong regard for his own country and countrymen. The thought of offending them is abhorrent to him and he is always extremely cautious in assuring himself that he will not be called upon to do anything on the screen that might reflect upon the dignity or honor of his nation or its citizens.

"The Secret Game," which is a very stirring story written by clever Marion Fairfax, will be shown at the Liberty theatre on Wednesday May 28.

BONDING BILL FOR RECONSTRUCTION

The reconstruction bonding bill calls for a possible issue of \$5,000,000. This measure was designed in part to meet prospective unemployment due to demobilization of Oregon soldiers and sailors. Of the total issue, an appropriation of \$2,000,000 is contingent upon enactment by congress of a land reclamation act for the benefit of soldiers, sailors and marines. In other words \$2,000,000 if used at all, will be used to match a like amount appropriated by the government. The further sum of \$547,500 is to be set aside for carrying out the purposes of a soldiers' land settlement act passed by the legislature. The remainder of the issue is to be used for construction of public buildings, some of which are immediately needed and some not.

There has been a definite pledge from the state officials who will have control of this fund that other reasons than availability must be apparent before it will be utilized. If there develops a condition of wide unemployment which building construction will remedy then buildings authorized which may not be immediately needed will be constructed. In the absence of a condition of unemployment none of the buildings will be erected unless a definite and immediate need for them is disclosed.

It appears, therefore, that this bill is in part primarily a grant of authority to deal in a practical way with a possible crisis and in part a contingent appropriation of funds for a land settlement revolving fund. As such it deserves support.

The sturdy French and English do not come fleeing to this country to escape from despotic government at home. They had backbone enough to eliminate defective features in their constitutions without wrecking economic structures and precipitating universal poverty. Stricter immigration laws are needed to exclude the element that accomplished nothing reformatory in Europe and create nothing progressive here.
