

What Does the Bank Say About You?

Before Opportunity makes her final decision, she "checks up" on you. She wants to know if you are worthy.

What a reputable bank says about you is often the deciding factor. If you're known at a strong bank as a man of good business habits—a man who keeps his checking account in a healthy condition—and his word likewise—such a statement will go far with Opportunity in deciding in your favor.

That there is a great impetus to be given to enlightenment and education in America is evidenced by the general nature of the lectures at the Chautauques. In all of them there is a great bearing made upon the surprising ignorance of so many thousands, yes, millions of our people. The lectures on these circuits were invited to a special meeting of the N. E. A. at Washington, D. Who Should Wear the Pants?

Pants were made for men, not for women. Women were made for men, not for pants. When a man pants after a woman and a woman pants after a man that's a pair of pants. Pants are like molasses; they are thicker in winter than in summer. There has been much discussion as to whether pants is singular or plural. It seems that when men wear pants it is plural and when they don't it's singular. If you want to make your pants last make the coat first—Exchange.
