TEACHERS LIKE MANUAL TRAINING.

More Oregon teachers are taking manual training at the agricultural college summer school than ever took it before. The subject is growing in popularity because it is taught in the public and special schools not merely to future tradesmen but to prospective farmers and others who find need for skill in the use of tools in wood and metal work.

Mexico has always been the Domain of Trouble. Very unfortunate, for in the constitution of things it cannot keep its trouble to itself.

Womens' skirts are tight, but the money to buy them with is looser.

WISE AND OTHERWISE.

Mercy! but geese and ducks would put on airs if they knew that members of their family were selling for \$ 60. each in Budapest.

It has been a source of speculation to us whether a soldier has to run all around himself in order to put on his wrapped leggings.

The appearance of white bread in Germany is said to have done more to calm public feeling than all the speeches of all the diplomats.

It didn't take long to transform a nation that was "too proud to fight" into one that was proud of its fighting and its fighters.

Under Bolshevik rule in Petrograd the only thing which are easily procured are burial permits. And the populace is standing in line waiting for them.
