

WHAT ARE YOU GOING TO DO TONIGHT ?

Would not you be more than glad if, in the coziness of your own home, you might listen to the world's best music—whether it be a classic—the latest military march, as played by a famous pianist—jazzy ragtime—or the melodies of long ago, that never get old.

Or perhaps you would dance or sing the late popular songs.

The modulating device on the Euphonia Player Piano makes it possible to play the song in a high or low key, a feature not to be overlooked.

The Euphonia Player Piano

is the last word in players. The only player having the Hawaiian Ukelele attachment, a feature which has been a decided hit wherever heard. Used as a regular piano for hand playing it is superior to many of the finest uprights.
