The fine rain storms of the past several days have been very beneficial to the range and have revived pastures to such an extent as to be of much greater value to stock. The rains have delayed the finishing up of the second alfalfa crop and threshing has been delayed, but so far as any actual damage is concerned there has been none.

Mr. and Mrs. Nate Franklin arrived home Sunday night from an extended visit to San Francisco and other California points. They report having had a delightful vacation visit with old time friends and relatives. C. Upon joining Henry they started on a tour to California where they ended the vacation period, arriving home just in time for the boys to enter school.
