The Times-Herald acknowledges receipt of a complimentary ticket to Chautauqua festival at Crane, bearing on October 15th and continuing for five days. This is more in nature of a Lyceum course, as programs are all given in the evening and consist of fewer numbers than the regular Chautauqua course. However, they are just as good, and of the same high character. In fact, the numbers given here during the Chautauqua are repeated at Crane. One of these is especially noteworthy—that of Major Thornton A. in his famous lecture "Middle Portunes."

Rabid Coyote Causes Damage

A rabid coyote came to the A. Cote ranch on lower Silver creek, in the Warm Springs country yesterday and bit some of the farm stock. Mr. Cote has been here on jury duty in the circuit court for the past week and last evening called the ranch by telephone to find how the family were, when he was informed of the affair. Mrs. Cote is employed as teacher in that district and she and the children had been away from home at school. On their return in the evening they discovered two dead chickens in the yard and finally discovered a coyote near. The boy jumped from the auto in which they had driven home and seized a gun, with which he dispatched the coyote. A further investigation disclosed that one of the valuable milk cows had been severely bitten at the corral. Mr. Cote went out last night with medicine to apply to the injured animals with the hope of saving them, but does not know how much more damage has been done.

Indian Agency Officers Here

O. L. Babcock, superintendent of the Warm Springs Indian agency, accompanied by Dr. W. R. Eddleman, agency physician, came in from Crook county last Wednesday and spent a few days in this vicinity in the interest of the local Plute Indians. Mr. Babcock has been trying to get some action looking to the betterment of conditions for the Indians of this section, especially in the way of medical attention from the department for treating the eye infection prevalent, and also school facilities. At present the local Indian boys and girls must go to Fort Bidwell, California, for their schooling. So far he has not been able to "jar the department loose" but is still persistent. Mr. Babcock expects to return here the latter part of next month for the purpose of attending to any leases of Indian allotment lands and in the interval expects to have some of the lands listed and advertised for sale.
