PROSPERITY IN ADVERSITY

The world is short on production! This is particularly true of those countries recently locked in the strife of nations. Even our own is included.

Foreign peoples are manifestly not in position to produce in proportion to their requirements for some years to come.

America is the sensible thing, then, for America to do is to increase its production to double, and treble it.

Two essentials to this and are paramount: Quit squabbling among ourselves, and GO TO WORK.

America is rich now. But in a few years, if we all go to work and produce to the limit of our capacity, we will have provided the necessities for which the world cries, and we will have enriched ourselves beyond the dreams of avarice.

Every one will become a plutocrat.

Go to work! Work harder! Stay with it! Your ship will come in and your dream will come true.

FOREIGNERS—GOOD AND BAD

In this country we have millions of foreigners—English, French, German, Austrian, Italian, Belgian, Swedish, Norwegian, Greek, Turkish, Japanese, Chinese, and of every other nationality. The great majority of these foreigners are conscientious and law abiding citizens. They work.

There is also in this country another class of foreigners. They constitute the minority. They are not law abiding, and they are not citizens.

THEY AGITATE. And because of the wild-eyed bolshevistic vapors of these anarchistic wind jammers and destroyers

our country of late has been in a constant state of turmoil.

This continual unrest and uncertainty are curtailing production, undermining efficiency and alienating the loyalty of many good men.

It must cease. Labor and capital must get together on a sane and reasonable working basis, where the division of profits will be fair to both sides.

But this will never be accomplished by allowing a braying minority to usurp the authority which belongs to a sane majority.

Men of intelligence and integrity do not care to take orders from illiterate and irresponsible foreigners whose only claims to leadership are a misguided conscience and a pair of leather lungs.

Brains, not noise, must prevail if we are to live in peace and plenty in this country.

TAKE A FRESH START

Opportunity is knocking loudly at our community door. It is insistent that it be permitted to enter.

The world is crying for the products of the factory and the soil. The demand is greater than the supply.

America can supply that demand—if it will.

We can supply our community portion—if we will.

But are we alive to the marvelous opportunities that are offered

us? Or are we peacefully sleeping while other communities skim the cream from the milk?

Buck up, fellows!

Take a fresh start!

Double the production next year.

Forge ahead, and make 1920 the banner year of our local existence.

Get the gravy while it is fresh.

The Green Ribbon

Not a Patent Medicine Ad.

Motto for a modern young man—illustrated:

"LOVE—ALL"

The Green Ribbon is considering a proposition to go into trade.

it's flapjack time

"look for the miner"

You see, Mr. Howell has a lot of hot water down there at his Swan Lake oil well.

All the Ribbon will have to do is furnish the money and Mr. Howell will build a Green House—and heat it with the hot water.

Then we'll raise all kinds of vegetables—tomatoes—lettuce—sweet corn—cucumbers—and green pickles.

And straw and other berries.

Also a lot of other good things.

We'll have them at Christmas 'n' all the time.

Common folks—like us—can buy them pretty cheap—but we insist dealers shall suffer.

Don't you think that a good idea?

But we may have to use deep well irrigation for the Green House.

Supreme Court mandates are so slow.

We'll share the profits with our help and everybody.

Except dealers.

Profit sharing with the help is only possible when one has employees—and something to share!

Some of the profits will have to go toward replacing high heels for ladies who lose them in cracks in Burns sidewalks.

Thank goodness the snow will soon fill up the walks.

The Ribbon would want to help the man who, when he barely ekes out an existence, turns green with envy and accuses his successful competitor of profiteering.

Then some more of the profits will have to go to make up for some men's lack of public spirit. We have to repair some of the walks, the protection of passers-by.

And tear down some grand old piles of "Irish confetti" on Second street—a growing menace to the lives and safety of little children playing around them.

It's a matter of sentiment with the Ribbon to protect those kids.

"Them noble thought" makes the Ribbon want to get out and to weeds—too bad there are none left.

Does that verse in the Bible about notes and beams refer particularly to the green eye of jealousy?

Our chief thought—illustrated:

"WHAT'LL WE TELL THEM NEXT WEEK"

Times when the average country weekly is late:

Every week.
