### We Court Public Opinion ON PRICE AND QUALITY OF GROCERIES

We established our business on the principle of being fair with our customers, giving them full value for the money they leave with us.

We have continued that policy throughout the years we have been serving you, and we are pursuing it more persistently than ever in this exasperating era of price inflation today. In our efforts to keep prices as near normal as possible we are selling at a closer margin of profit than ever before. But we NEVER lower the standard of our goods.

On this high plane of commerciality we solicit your patronage.
