SOMETHING TO DO
Our old friend congress is back on the job again.
Assuming that our distinguished servants are there to execute the will of their masters, the people, we have the unblushing temerity to suggest that they have a plenty to do.
Among the more important matches which demand attention, are:
A conclusion of the peace treaty with Germany.
Settlement of the league of nations mess in a manner which will be at least in a measure satisfactory to the American people.
Final and effectual eradication of that old cankering sore in the American side—Mexico.
Adjustment of the strike nuisance in such a manner that the consuming public will no longer be the goats for both capital and organized labor.
Suppression of the wild and aniline era of profiteering, with nothing less than prison sentences for the guilty.
Deportation of all Reds and imiters which demand attention are: loyal to America and American institutions.
More action and less side stepping and bluffing.
Congress may be in the mood to temporize, but the public is not. It means business and it expects results.

WISE AND OTHERWISE.
Turkeys are ripe for the Christmas plucking—and so are you.
Scientists tell us that the world's supply of coal will last for 7,777 years to come. They are wrong. At the present rate of getting it out of the ground it will last for 7,777,777 years.
Now that congress is again in session, let's put an end to the peace war ended over a year ago, and we are still cackling around like a bunch of pullets trying to lay their first eggs.

Let me get you MORE MONEY FOR FURS
I know that the average trapper does not get as much as he should for his furs. I know that there is a way to give the trapper all that he is entitled to, and I'm going to do business that way.
My way of selling your furs for you by competitive bid will get you the highest possible prices. Write and I'll tell you about my method of getting you more money for your furs.
