

His Dollars Worth

"No sah, Ah don't neber ride on dem things," said an old colored lady looking in on the merry-go-round. "Why, do other day I seen dat Rastus Johnson git on an' ride as much as a dollah's worth an' git off at the very same place as he got on at, an' I sez, yo' spent yo' money, but whar yo' been?"

This is only a homely little story but the point of the story is the basis for some real honest thinking.

Money has COME EASY and GONE EASY for many of us during the past few years, and we haven't always GOT OUR DOLLAR'S WORTH either, have we?

It doesn't necessarily follow that money will always come easily. In fact it is beginning to look already as if credit is to be restricted which can mean nothing except "tight money" and if this condition comes to pass we will wish we had kept some of the GO EASY money.

Let us recommend saving to you. Saving and Thrift prevent many of the troubles of life. Saving isn't hard; it's easy. It's all a matter of getting started. Begin now and someday when the world would otherwise look "cold and dreary" your savings will bring you comfort as nothing else could.

Save what you can. Don't set too high a mark, but save what and when you can, for small, steady savings make large sums. Ask us more about it for we will be glad to explain our savings system.

Let's not lose our "pep" during these coming times. Be up to meet conditions and requirements to keep pace with progress. That's the way to make things go and be in the swim.

With the irrigation project completed we are going to find a lot of our neighbors who have gone over into Idaho coming back to farm their land in Harney valley. We'll also keep those cows and sheep at home to feed instead of shipping them out.

We're going to witness some astonishing progress in this vicinity during the present year. Many things will follow the irrigation project, in fact will precede it, as they are ready and can be put in operation quicker. We must be in line for these developments and take advantage of them.

Better to be shipping out baled alfalfa hay and bringing the money in than shipping our stock out and paying other people to feed them. That's what will occur when the dam is in and we have the water conserved.

L. R. Wilfong, formerly a resident of this section, owning a farm between this city and Lawen, is in this vicinity visiting with friends and looking after business interests. Mr. Wilfong has been living over in Idaho for the past couple of years where his son is also located.
