

Baldock
CLOTHES

new—is a trait of this firm which has made our Cleaning and Repairing an ART in this community.
Phone us to call today. I. will be ready before Easter m. rn.

Do not always mean NEW clothes.
Many times, in this day of underproduction, that suit or dress hanging in the closet has better woolen in it than can be found in garments at twice its cost today.
Bringing out all the soft, clean, pattern of that old garment—making it look brand new.

Monday Reg. 55c walnuts 45c per pound, limit 10 pounds
Tuesday Reg. 60c tea 50c
Wednesday Reg. 20c carnation milk 6 cans \$1, 12 can limit
Thursday Reg. 20c stringless beans 6 cans \$1
Friday Reg. 35c raisins 27c, 10 pound limit
Saturday you can buy any one or all of the above groceries.

DR. BUERKI

AN EASTERN GRADUATE

Dr. R. C. Buerki, who arrived here last week and has taken up his residence in this city with the intention of remaining permanently to practice general medicine and surgery, is a graduate of eastern schools. The young man is a graduate of the university of Wisconsin and a graduate of the university of Pennsylvania medical school.

He was resident physician of the Pennsylvania hospital, Philadelphia, later being chief resident and house surgeon at the same hospital.

Dr. Buerki was in the army and taught fracture surgery in the army medical school, being stationed later at U. S. hospital No. 11, doing nerve and brain surgery. Recently Dr. Buerki has been associated with Dr. Stewart of Boise, doing surgery and medical consultation.

ANOTHER FANT

WRESTLING MATCH

Important late news and legal notices prevented The Times-Herald making mention of the wrestling match between Joe Prime and Tom Williams at Tonawana on Friday night of last week. Joe was again the victor in this bout, but it was not final, because of an accident which incapacitated him.

The first fall was secured in one hour and twenty-eight minutes, the struggle was renewed following this

fall when Mr. Prime was hurt by his opponent and Referee Deveney called the match off. Tom Williams is still game and writes to this paper from Ontario that he would like to meet Prime again some time the winner to take all. No doubt he can secure this kind of a go, although we have not communicated the challenge to Mr. Prime.

Suntex Post Road Sco Te Have Attention

K. H. Baldock, division engineer for the State Highway Commission, with headquarters at Baker, spent the past week in this section looking over the road situation. Mr. Baldock went over the route for the post road between Burns and Suntex and will make a report at once. Following this report J. N. Bishop, an engineer now on the ground, with his crew, will begin the survey of the Burns-Suntex route. At present Mr. Bishop and his assistants are surveying the Wright's Point Market road.

C. E. Randels, the engineer who has been the representative of the Highway Commission on the work being done between here and Lawen, has recently located the Well Hill market road and this is ready for the court to advertise.

Prestey Smyth was in town from Diamond during the week.

Mrs. A. R. Olsen and baby daughter have left for Seattle where they expect to remain for four or five weeks until Mr. Olsen can go out to meet them. Then the whole family intends to continue the trip to San Francisco and southern California points.

A young swain writes in to know how best to win a girl. Don't try—let her win you.

New Forest Supervisor Visits This Section

W. W. Cryder, supervisor of the Malheur Forest, with headquarters at John Day, was in Burns yesterday meeting with the people of this city and also meeting with the stock men of the community. There being a meeting of the stock association yesterday afternoon.

Mr. Cryder succeeds Cy. Bingham as supervisor of this district. Mr. Cryder informs this paper that he has been connected with the forest service for seventeen years and is therefore familiar with the duties he has assumed.

The gentleman made a favorable impression upon those with whom he came in contact. He will be over again at the big convention of stock men in May.

GIVE CREDIT WHERE DUE

Banks are slow to give credit and the people are as proverbially slow to give bankers credit for anything. In the universal complaint over advanced prices of everything, there is one business that has not taken advantage of the trend of the times.

Banks have not raised prices to keep pace with every other line of business or professional activity. The banks of the United States are charging practically the same rates for money as they did before the war.

Banks themselves probably feel the advanced prices as much as any other one line of business.

Without doubt it costs any bank that does any volume of business at all twice as much to conduct its affairs as it did before the upward tendency set in.

Federal and state taxes are greater for them in proportion than for others and in most states their assessed valuation on assets is higher than other classes of property.

With all these burdens it seems a

wonder that they have not followed the natural course and advanced their rates to the limit permitted by law.

And yet the fact stands out clearly that they have not and have shown no tendency to do so. But how little credit is given them?—E. Hofer.

Congress, like the sunshine, has its periods of obscurity.

The man who speaks well of others need never worry over what people think of him.

UNCLE SAM STUDIES KIDDIES FOOD

The big gray automobile, known as the Child Welfare Special, which the Children's Bureau of the U. S. Department of Labor is using to bring the welfare message to babies in villages and on farms, has been co-operating in a nutrition survey in one of the rural sections of Kentucky this is the first nutritional survey undertaken by the Children's Bureau, and it is quite different from other such surveys, in that it seeks to connect the physical condition of the child with living conditions.

Although only 256 cases were studied, and not all of this number received physical examination, the survey gives a complete picture of conditions among the children of this mountain county, and the results of the examinations, plus living and dietary data will, it is hoped, reveal causes responsible for malnutrition in this area. The material at present being analyzed and tabulated and a report will be published in the course of a few months.

The information concerning diet and health habits was obtained in a house-to-house canvass, and the physical examinations were given by the staff of the Child Welfare Special. The truck is fitted up as a model well-baby clinic, with a government doctor and nurse in charge to examine children and give mothers advice concerning the care necessary to keep them well.

The car is centrally parked, usually near a courthouse, town hall, lodge hall or woman's club, wherever there is an available waiting-room which may be used also for

One family at a time is received into the Special, which has all the privacy of a consultation room. In a dressing room at the end of the truck the nurse secures the health history of the family and of each child to be examined, and weighs, measures and prepares the children for examination.

In the conference-room in the body of the car each child is given a thorough examination by the doctor, who advises the mother in hygiene matters and urges the attention of her physician if defects are found.

Shortage of Irrigation Water is Noted

by foresight, precaution and cooperation, of which we trust we may have a full measure the coming season.

In any event, let us not overlook the fact that now is a good time to begin.

Stockmen's Convention Here May 24-25

(Continued from page 1)

tainment. There will also be ladies present who will be guests of the ladies of this county.

Should the attendance exceed that estimated, or even if it comes up to expectations, it is going to tax the ability of the citizens to take care of, therefore it is up to all to take an active part in arrangements for the meeting. Sleeping quarters must be provided and extra eating places opened up for the accommodation of the guests. The stockmen of the county are going to aid in financing the affair and the citizens of Burns are not only going to aid in a financial way but also take active charge of the work and supervise all arrangements so that we will be in readiness to receive the stockmen in a fitting manner on their arrival and make them welcome and happy during their stay.

SERVICE MEN!! LINE UP WITH YOUR DISCHARGE PAPERS FOR THIS MONEY

This is just a word from one ex-service man to others who live in this country about some money that may be yours merely for the asking. Some of you might not know that the War Work Council of the Y. M. C. A. has set aside a sum of money for this county which will be given to former service men who want to continue their education.

All you have to do, if you want to go to school, to college, take a home study course or brush up in general, is to cut out this clipping and mail it, with your name and address, to C. A. Kells, Room 305, Y. M. C. A. Bldg., Portland, Oregon, and the "Y" folks will do the rest. The money allocated to this county should be applied for within the next thirty days or there is a possibility of it being used for ex-service men in other counties.

Better cut this out while you are thinking about it and mail it to the Y. M. C. A., Portland, Oregon.

E. G. HARLAN, Portland, Oregon.

No, we can hardly charge the profiteer with sticking like a leech. The leech sometimes lets go.
