Masonic Building

interesting program next Friday on the "Life and Works of Shakespeare" everyone come and see for yourselves what the students of the high school are doing and what they are accomplishing.

We all enjoyed Spring once this year when the Sophomores gave their program on "Spring" but most every one will agree that we have another one due soon.

The high school library is now in good "trim," with several new books added to its already numerous list.

Week after next will come the last six week's exams of the year. The next will be the finals.

The Juniors called a meeting Wednesday night for the purpose of electing a new secretary. Ruby Dickenson was elected.

Don't mind if the H. C. H. S. notes are a joke this week; they were all written up on April fool's day.

One of the participants of the Commercial Club program last Friday night was the Senior class president, Jo D. Cook. His reading of "The Shooting of Dan McGrew" was very interestingly interpreted.

The Senior class has received invitations from the class of 1921 to attend a theatre party on Saturday, April 3rd.

H. C. H. S. Notes

Gene Schwartz, Frances Donegan, June Dalton, Gladys Byrd.

We were honored by the presence of Mr. William Hanley at last week's program. Mr. Hanley spoke a few words of good cheer and encouragement to the students. He assured them of his hearty appreciation and liking for Harney County products. We are always glad to see you Mr. Hanley.

Among the patrons present to hear the "Fresh" program were the Messames Sutton, H. Hotchkiss, J. T. Baker, J. H. Cameron, Stirling, Donegan, Cook, Lloyd Johnson, Obil Shattuck, Denstedt, Misses Eugenia Hibbard, Lulu Hayes, and Nettie Stirling, and Messrs. Poleman Skiens, N. Hotchkiss, and L. Miller.

Leith Abbot, U. of O. '21 has been in evidence the past week. He writes long articles for the Emerald and performs on the track for the University. Associated with the fast time of 1.58 in the half mile, he is today Oregon's best bet for the conference meet.

No—Mr. Abbot is not resting, recuperating, sightseeing or leasing oil lands. He smiles—and smiles—in spite of the weather, so everything must be right—o!

The class secretary of the Sophomore class has received word from several former Harney County High School students, that they enjoy reading our High School news columns and are glad to know that old Harney High is awake and doing things once more. We hope that not only they, but others who contemplate entering high school will notice what we are doing and enroll here next year. We are going to do twice as much next year, and expect a much larger enrollment. Harney County boys and girls should go to Harney County High School.

Miss Frease, our Sophomore class advisor, was unable to attend school Thursday, because of illness, others who were on the sick list were, Howard Miller, Myrtheleen McPheeters, Hazel Hibbard, and Mabel

Skiens. Sophomores are always looking out for big things. Lake Chaugogogmanchaugogog-chaubunagun-gamaug is a New Hampshire lake that touches Connecticut, and is just a little longer than its name. Can you pronounce it? We can not.

Last Tuesday the Medieval and Modern History class had an after session at three fifteen. It wasn't a punishment however, and Miss Krichesky had a nice surprise for us, because we had been good. Now we are always going to be good.

The H. C. H. S. will have an art exhibit, probably sometime next week. It will be a big exhibition of some of the very greatest pictures. There will be about one hundred and twenty five prints in twelve sizes, half in sepla finish, half in water color finish, and all on beautifully embossed white mounts.

The purpose of this exhibition is to raise enough money to buy for the school some really good pictures, beautifully framed. Tickets will be sold for admission, twenty five and ten cents. This will certainly be more than worth your money and of course you are anxious to help your school.

The Freshmen held a class meeting Thursday and heard the reports of the various committees, and fixed a time for the program committee to meet.

Numerous April Fool jokes were played on Mr. McDade. He says that he doesn't understand why they all pick on him.

The Seniors conducted the program this Friday and the girls served tea to all visitors.

"Hungry" Smith H. C. H. S. '13 has been in our fair city for a few days. The details of Commencement are being worked out. Among other features, will be a violin solo by Elex Eggleston, music by girls quartet, Ladies Sextette, and Reeds Orchestra. Miss Frease has been confined to the house by a touch of the prevailing cold. She expects to be with us again Monday.

A gymnasium is certainly needed. It wouldn't cost much and would be a boon to us. With an enlarged enrollment predicted for next year how physical training classes are going to be handled is a mystery.

The Junior class will give a most

Dear Freshmen, the high and mighty Seniors extend to you their sympathy in your present trials and future joys.

The Senior program given Friday is the last program to be given by that noted class. The following program was rendered:

"Topics of the Day
Presidential Possibilities—Jo Cook
Merchant Marine—Taylor Huston;
Vocal Solo—Marjorie Byrd; General Conditions in Europe—Neil Miller;
School Notes—Willis Skiens.

After the program, tea was served to the guests, and a Parent-Teacher's Association was organized.

Many preparations for commencement are now being made.

Baptist Church Announcement

Rev. J. J. Tickner, B. D. formerly of La Grande, Oregon, has accepted the pastorate of the Burns Baptist church, and will speak next Sunday morning and evening. Rev. Tickner has been pastor of some of the best Baptist churches in the Northwest and comes highly recommended by some of the most able Divines of Michigan and of Washington and Oregon.

Everybody is cordially invited to attend all our services.

Pulpit Committee of the Baptist church.

NOT CHARITY, BUT PUBLIC SERVICE

When young pigs are fed only corn and slop they are almost twice as long in maturing as when they have a wellbalanced ration. When young babies do not have the right kind of food they are apt to die.

In 1917, 29,223 babies under one year of age died, in the U. S. Registration Area, from digestive troubles. Many of these babies died because their mothers did not know how to feed them. Most country mothers do give their babies breast milk, the only perfect food for infants. But sometimes they, as well as city mothers, spoil the good effects of nursing by giving other food in addition to mother's milk, in many cases a taste of everything that the mother eats herself. They are surprised when they learn that this is not good for the baby.

Farmers can get scientific instruction about crops and livestock from their home demonstration or county agricultural agent. Their wives ought to be able to get scientific advice about feeding and caring for babies, preferably from a public health nurse. This is not charity but public service, paid for by taxes received by the U. S. government.

Public health nurses, to advise and teach mothers in their own homes, can be provided in every community.

STEERS GAIN ON SILAGE

When William Buckner of Granger put up his silo last fall he began feeding his steers ensilage. In the 75 days of feeding one steer gained 320 pounds and two others gained all through the period at the rate of three pounds a day, says the Benton County Farm Bureau News. They received 45 pounds of silage a day, with clover or vetch and chest hay.

NOT CHARITY, BUT PUBLIC SERVICE

When young pigs are fed only corn and slop they are almost twice as long in maturing as when they have a wellbalanced ration. When young babies do not have the right kind of food they are apt to die.

In 1917, 29,223 babies under one year of age died, in the U. S. Registration Area, from digestive troubles. Many of these babies died because their mothers did not know how to feed them. Most country mothers do give their babies breast milk, the only perfect food for infants. But sometimes they, as well as city mothers, spoil the good effects of nursing by giving other food in addition to mother's milk, in many cases a taste of everything that the mother eats herself. They are surprised when they learn that this is not good for the baby.

Farmers can get scientific instruction about crops and livestock from their home demonstration or county agricultural agent. Their wives ought to be able to get scientific advice about feeding and caring for babies, preferably from a public health nurse. This is not charity but public service, paid for by taxes received by the U. S. government.

Public health nurses, to advise and teach mothers in their own homes, can be provided in every community.

If the Sheppard-Towner maternity bill, now in Congress, is passed. This bill proposes federal aid for the public protection of maternity, including instruction in infant care by public health nurses. The act will operate in the same way as the Smith-Lever act, by which federal aid is given to promote better farming.
