MUST WE TAKE A HAND?

With the labor unions striking everywhere, and policemen and firemen getting into the game, and every one else demanding more pay, it will soon be time for the preachers to lay aside their bibles and the editors to discard their pencils and all join hands in one grand rush for shorter hours and more gold. The country don't want to go to hell, and it would have a hell of a time getting along without its newspapers. Yes, we may have to take the plunge even yet, we editors and preachers. There's very little sport to be had in paying the piper without being able to dance.

IRRIGATION SYSTEM CONSTRUCTION SIMPLE.

The directors have had a session and discussed the project in this territory. They have profited by their observations on the Ochoco project and feel that their tour of inspection has been beneficial.

OWEN F. JONES FOR CONGRESS

Elsewhere in this issue appears the announcement of Owen F. Jones of Baker, Oregon, who is a candidate for Representative in Congress from this district, opposing N. J. Sinnott of The Dalles.

Mr. Jones bases his claim for the Republican votes on the fact that he has been over the Eastern Oregon territory for many years past; he owns and operates an alfalfa ranch

near Baker, where the necessity and importance of irrigation is constantly demonstrated to him, and is also the owner of a large stock ranch which he is operating.

In his campaign he promises to make a fight for Oregon's share of Federal funds in the Treasury of the nation, which up to this time have never been justly apportioned. He promises equal rights to the public, labor and capital, and the development of irrigation, mine and timber interests.

He is a man of middle age, very aggressive and able, and had a son in the recent difficulty in Europe. He is creating a favorable impression wherever he goes, and we predict that he will be among those present when the votes are counted.

The Sophomores have had quite a busy week. Plans were made and carried out that made their "weenie" party Friday a complete success. The outing, held in "honor" of the "Frosh" was attended by a greater portion of the school.

Sunday morning the Senior class with the Faculty and Mesdames Schwartz, Huston, Cook and Eagleston will depart on a fishin' trip. This party will go in autos to Spring Creek.

Some yarns are certain to be heard—"the one that got away"—etc.

From all we can gather the Prineville High Baseball Team will oppose H. C. H. S. in a two game series to be held at the Fair grounds May 24th and 25th.

Our boys are practicing hard and hope to render a good account of themselves.

The Domestic Art and Millinery classes have completed several articles

including hats, middie blouses and dresses.

An exhibition of the finished projects will be arranged for.

Frank Loggan has returned home and is looking more cheerful. It will take a little time but Frank says he'll be with us next fall.

George Hugnet is out for the season with an attack of inflammatory rheumatism.

Helen Goodlow is also out for a time under the doctor's orders.

American Legion News

While this paper is going to press a large number of the Burns boys are on their way to Crane where they will hold a Post meeting tonight. We hope to favor other sections this summer.

Maude Ballington Booth told an audience of soldiers and sailors some time ago, that while in France she had learned the first principals of "cootie arithmetic," which she defined as follows:

They add to your troubles.
They subtract from your pleasures.

They divide your attention.
They multiply like hell.

—A-L—
Many people refuse to consider the appeal of service men for governmental aid anything but "Graft." These same people however were perfectly willing to strike for a dollar an hour an eight hour day, double pay for overtime, etc. while we were doing 24 hours straight for that same dollar and taking a chance on living to "enjoy" the dollar.

—A-L—
Our demands of congress—of America—is not for additional money, but for a chance to earn a living and catch up with those that stayed at home and fattened up their purses at our expense and still hold our jobs.

—A-L—
Yes, we got a \$60.00 bonus. It darn near bought a fifteen dollar suit of clothes. Wouldn't kick if there had been two pair of pants with that suit.

—A-L—
What we want is for Congress to loan sufficient money to build some of our large irrigation projects, loan us sufficient to build a shelter and secure tools to work with and we will repay the loan and enrich the nation. WE WANT A CHANCE.

—A-L—
For those that live in cities we desire a chance to establish a home.

Many prefer a college education or vocational training, we feel that the Government owes it to use as we donated two years of our lives to our Government and came home to find that it was fight to secure enough to

We Meet Competition

Competition doesn't scare us. We are ready to meet it in everything we sell.

In quality of goods.
In price of goods.
In service rendered.
In courtesy extended.

In fact, we are always ready to go as far for our customers as any other firm in town—and then some.

We can do this, because

The government suggests paid up insurance, and this would prove satisfactory to many with families that are now hard pressed to keep up their premium.

A straight payment of \$1.25 a day for each day in service added to the \$1.00 received, makes a mighty small wage compared with the minimum of 6.40 granted to ship yard workers, et al.
