

The Fourth Man

We have told you about three men who SHOULD'NT SAVE This week we describe:

MAN NUMBER FOUR

THE man who doesn't care. The world has its full quota of "don't care" people. Opportunity may knock, necessity arise, need come, but they do not seem to care. A Man who does not care is a tramp and the world has little use for him.

YOU

do care—therefore you should save money and practice thrift.

HOW ABOUT IT?

Wouldn't it be a wise move on your part to start saving now?

Reduce Shoe Cost

BY BUYING QUALITY

There is a difference in shoes. The shoe of quality looks good when you buy it, and retains the appearance of quality as long as you wear it.

The "cheap" shoe looks good when you buy it, is "rusty" in a short time, and a wreck long before you are ready to discard it.

That is the difference in shoes—and there is more difference in the shoe than there is in the price.

A GOOD shoe will last twice as long as a "cheap" one, and a GOOD shoe does NOT cost twice as much as a "cheap" one. Figure it out for yourself.

See us for GOOD shoes only—GOOD shoes at MODERATE prices.

Look at these styles. They are the season's best shoe values. We had a dozen lines to pick from. We want your permanent patronage so we chose these and other models in this sturdy, popular make.
