petite and everything I eat agrees with me perfectly. My nerves are steady and I don't have that tired feeling like I used to. Tanlac gets the whole credit for restoring my health and I recommend it with all my heart."

Tanlac is sold in Burns by Reed Brothers, and in Crane by Valo Trading Co. —Adv.

Seasonal Suggestions on Things often Overlooked, as Seen by the State College

**Dairy:** The dairy department of O. A. C. advises that the cows should be given comfortable quarters and good care at calving time. The result will always be a larger milk yield.

**Poultry:** To produce good growth in chicks sour skimmed milk or butter milk is recommended by the poultry department of the college. A combination of milk and tested out infertile eggs is also recommended. Both contain the vitamins that produce satisfactory growth in chickens. No other foods are equal to eggs and milk in this respect.

**Bacteriology:** Bacteria for the culture of clover, alfalfa or other field crops may be secured from the college for 50 cents a bottle, which will plant two acres. The college recommends that a patch be left untreated in order to compare it with the soil treated with the culture to ascertain if the culture is effective. Some soil does not need the inoculation, and it

is rather expensive if good results are not secured.

**Poultry:** If plenty milk is available keep it before the chicks instead of water.

**Farm Management:** The successful farmer operates his farm as a business enterprise based on business methods. A simple form for farm accounting is found in the farm record books issued by the college in connection with the county agents and local banks.

**Dairy:** Bulls from high producing cows insure a future herd that will give greater returns for food and labor. Plan now for such a bull to head your herd, advises the dairy specialist of the college.

**Farm Management:** How much you will be able to pay for irrigation water is a question that can only be determined by keeping farm records and accounts. The farm management department of the college advises the use of the farm record book which may be obtained from your county agent or bank.

They do not just exactly accord with our own ideas, and we proceed to "hand it to him"—from a distance by the time we are through with him his own mother would have difficulty in recognizing him. He has no horns in evidence, but we often give him

credit for possessing them.

Good man are plentiful in this world. They will always be plentiful as long as the world remains as it is.

**Will SOMETHING Happen to make you rich?**

A rich uncle may die and leave you a roll, but few rich uncles have this habit. If you get rich the chances are you will first have to save enough money in order to make an investment that will pay. There are plenty of investments for the man with a little ready cash. But it is up to you to save cash. The best policy is to deposit a portion of your salary. A Bank is better than a hole in your pocket through which your money can slip away. Make our Bank YOUR Bank.

**Now Well and Happy Woman**

Mr. Lorang Has Good Appetite Digestion is Perfect and Nerves Are Calm.

"Since I have taken Tanlac I am doing my housework again for the first time in nearly a year and a half," said Mrs. William Lorang, of 1414 Fourteenth St., San Diego, Cal., a few days ago.

"My only regret is that I did not take Tanlac as soon as I heard of it, for if I had it would have saved me a lot of suffering," Mrs. Lorang continued. "I was in a terribly run-down condition, gradually getting worse and losing weight all the time. I even ran the carpet sweeper across the floor my heart would palpitate so bad I would almost faint. I had to give up my housework altogether and I was awfully nervous all the time and felt tired from morning till night. I never felt hungry and the little I forced myself to eat gave me no strength or nourishment."

"I had been reading about Tanlac but I did not decide to try it until I saw a statement from a person who was troubled like I was. It seemed to me that I felt better, after the very first dose and I continued to im-

prove until now I am in the very best of health. I am so much stronger and my housework is no trouble, and I am getting back my lost weight as fast as I can. I have a splendid ap-

**WE CAN SELL IT FOR YOU**

Nearly everyone has SOMETHING they would like to sell—if they could only find a buyer. There IS a buyer for your article somewhere, and WE CAN FIND HIM OR HER.

What have you to sell? A farm or a house and lot, a horse or cow, a pig or a threshing machine, a poodle dog or a pet canary, it's all the same—SOME ONE WANTS IT and will buy it if you get in touch with them.

There's no article too large or too small for us to sell, for we talk through our display and want ads to EVERY ONE WHO WANTS TO BUY.

Try it. Your purse is never so full but what it can make room for a little more.

**The Most Welcome Tire That Ever Came to Market**

Men Who Appreciate Superlative Values Prefer The Brunswick

In every great tire factory, the chief question is: "How much can we give for the money?" And the product depends on the policy adopted.

Every man who has become acquainted with Brunswick Tires knows that Brunswick standards are again evident. This famous concern—noted as a leader in every line it entered since 1845—has once more proved that its policy is right.

A perfect tire is simply a matter of knowledge and standards and skill. No secrets nor patents prevent making an ideal tire.

But standards come first. For in tire making there is vast room for skimping, for subtle economies, for hidden shortcomings. Makers without the highest standards don't build high-grade tires.

The Brunswick organization of tire makers includes a brilliant staff of technical experts. Not a man

among them has spent less than 20 years in handling rubber.

Each is a master of his craft. And the new ideas they bring to the attention of Brunswick directors receive sincere consideration.

Every proved betterment is adopted unanimously.

The Brunswick Tire is a combination of acknowledged features—plus Brunswick standards of manufacture.

The result is a super-tire, the like of which you have never known before. The kind of a tire you will gladly join in welcoming.

Yet Brunswicks cost no more than like-type tires.

Try ONE Brunswick. We promise a surprise. And we feel certain that you will want ALL Brunswicks.

Then good tires will have a new meaning to you.
