

Mrs. Murphy of Muskogee

went to her fruit-jar bank the other day and found that someone had taken her savings of many years EIGHT HUNDRED DOLLARS.

There are people in every community who handle their money in the same, foolish, unproductive way.

The money in the Fruit-jar was idle
It was Out Of Circulation
It was Rendering No Service to Anyone

MONEY PLACED IN BANKS:

Is more safe and is a basis of credit.
Adds to the stability of the individual,
the bank and the community.
Aids in carrying on business industries
and the employment of labor.
And, banks are reaching out to help
the farmer enlarge his herds, im-
prove his equipment and increase
production.

POLITICAL NOTICE

Owing to the illness of Mr. Jolley, which will probably prevent him from meeting the voters as he would desire, I have decided to submit my candidacy for nomination for county judge to the voters without making a personal canvass.

I am submitting my candidacy to the republican voters, under the pledge that if nominated and elected I will give the people of this county a fair and square business administration of the office and that I will discharge all duties entrusted to the best of my ability.

HEADQUARTERS, REED BROS. DRUG STORE**Reduce Shoe Cost****BY BUYING QUALITY**

There is a difference in shoes. The shoe of quality looks good when you buy it, and retains the appearance of quality as long as you wear it.

The "cheap" shoe looks good when you buy it, "rusty" in a short time, and a wreck long before you are ready to discard it.

That is the difference in shoes—and there is more difference in the shoe than there is in the price.

A GOOD shoe will last twice as long as a "cheap" one, and a GOOD shoe does NOT cost twice as much as a "cheap" one. Figure it out for yourself.

See us for GOOD shoes only—GOOD shoes at MODERATE prices.

Look at these shoes. They are the season's best shoe values. We had a dozen lines to pick from. We want your patronage so we chose these and other models in this sturdy, popular make.
