JOHN D. DALY, President
A. C. WELCOME, Vice President
E. H. CONSER, Cashier
J. M. DESILETS, Asst. Cashier

LOCAL HAPPENINGS

Mrs. Oakerman was among the business visitors in town this week.

E. L. Wallace of the Crane State Bank was in town during the week. He was accompanied up by Mrs. Wallace.

Mr. and Mrs. Grover Everitt of Nampa were here during the past week on a visit to Dr. and Mrs. B. F. Smith. Mr. Everitt is a relative of the Smiths.

County Agent McDaniels is still of the opinion that Harney county should have a fair this fall and The Times-Herald is of the same opinion. What do you think about it?

Readers of The Times-Herald who take advantage of the classified ads, both as sellers and as buyers, are profiting by it. Have you looked over the classified column yet this week?

Arthur Geary, a nephew of Dr. J. W. Geary of this city, was among those to attend the stock convention. The young man went from here to Klamath county. He resides in Portland.

E. H. Bathrick and family were among those from the south end of the county to attend the stock convention. Mr. Bathrick is one of the progressive stock men of that locality where he is devoting his energy to pure bred beef cattle.

Some one complained that we were having a stockmen's convention here but were doing all our running around in cars. There wasn't any time from the business of the meeting to devote to seeing buckaroo parades or horse races.

A. E. Stauffer was another one of the old time stock men of this county to come to the convention during the fore part of this week. He was not here for the entire session, being delayed, but he made up for lost time after his arrival.

Mr. and Mrs. C. E. Kenyon were over from their home at Weiser, Idaho, during the stock convention. The Kenyons formerly lived in Burns and it is needless to say they met with a hearty welcome. Mrs. Kenyon's mother is now living in this city, being at the home of her son, Clarence Luckey.

C. E. Arney, Western Immigration and Industrial Agent for the Northern Pacific Railroad, was one of those to attend the stock convention. Mr. Arney has been attending these conventions from the first and also follows the stock shows and other gatherings of the stockmen throughout the entire Northwest, but stated he had never witnessed a more intensely interesting and profitable convention before the one in Burns.

Mr. and Mrs. L. Woldenberg were over from Canyon City during the stockmen's convention.

J. C. Beatty and his son John were up from their home near Denio during the present week.

A. H. Page was in town for a few days during the week from his home at Diamond.

Newt Lewis, one of the old timers of this interior country, has been in town for several days renewing acquaintances.

Frank Cawfield is over from the Harper ranch on a visit with relatives and friends. Mrs. Cawfield had been here for several days previous.

The Times-Herald is not going to attempt to mention particularly its many friends in from the surrounding country to attend the stock convention, for there were too many to give each particular mention.

H. M. Horton came over from Bend the first of this week, having made the trip through with a friend, to take in the big stock convention and to visit with home folks for a time. He returned in his own car on Thursday accompanied by Dr. Roberg.

Geo. N. Angell, representing the Oregon Farmer, a weekly farm journal that has quite a circulation in this part of the country, has been in this city for the past week, having come in to attend the stockmen's convention. Mr. Angell remained to get some additional new stories of this part of the state and from the nature of the data he has secured we may expect some pretty good things to appear in that paper about Harney county.

The local telephone exchange has been having its streak of luck for the past few days. Mrs. Rohn is ill and Miss Leora Goodlow has such a cold she cannot speak louder than a whisper. Miss Gladys Nicholson had intended taking a position on the board but after starting the work quit to accept a position as stenographer with County Agent McDaniels. The board has suffered from these handicaps but the bookkeeper, Miss Leona Thompson and Mrs. Nollie Reed finally came to the aid of the distress signals, as did also Mrs. Blanch Robinson.

Capt. and Mrs. A. W. Gowan took their departure Wednesday afternoon going out by way of Crane, the former en route to Portland for special medical treatment, the latter to Pendleton where she will visit with her daughter, Mrs. W. C. McKinney. Capt. Gowan has been confined to his room for several weeks following an operation and his case did not respond to treatment of his local physician satisfactorily, therefore it was decided that he go to Portland to be under the care of a specialist. Capt. Gowan has enjoyed very good health for many years up until recently and it is hoped he will soon recover that same heartiness.

Morn—Wednesday, to Mr. and Mrs. W. L. Lowe, a son.

Forest Supervisor Cryder was over from John Day during the convention.

Lloyd Johnson's family have moved to the ranch following the closing of school.

Dr. and Mrs. Hedges, Henry Welcome, W. P. Allen and Wm. Jones were among our Juntura visitors during the stock convention.

E. N. Kanavaugh, head of the grazing department of the forest service in this state, was here during the stock convention.

Mr. and Mrs. James Donegan arrived home last evening from Portland where they had been to attend the wedding of their daughter, Miss Carmen to Nils Eifving.

T. J. McDonald has tendered his resignation to the city council as city marshal and will be succeeded by R. L. Haines, the veteran man on that job.

James, George, Jeff and Frank Cawfield are all in town. Their brother, John O., is very ill at his home in this city and fear is expressed for his recovery.

Ira Gabrielson, head of the U. S. Biological work in this state, was here during the week. Both his assistants E. E. Horn and Mr. Janison were also here.

M. W. Brecount and John Walkup came down from Seattle the other day. John came down on business and Miles came along to visit with his friends for a short time. Both boys are working in Seattle.

M. J. Clepp, a former teacher in the high school of this city, is here. He has recently closed a term of school at Ione, in Morrow county and is here to look after some local financial interests.

The delegation that went to Baker to attend the grand lodge of the Odd Fellows returned home last night. They were: Gus Bardwell, W. W. Gould, W. N. Monroe, Sheriff and Mrs. Goodman, Bart Siler. They report a fine time and a very successful meeting.

Atty. J. W. McCulloch came over from Ontario yesterday and will go to Lakeview tomorrow in company with Capt. Robt. M. Duncan, the other member of the law firm, to look after some legal matters.

R. L. Breithaupt, formerly superintendent of the experiment station in this county, but now county agent for Malheur county, was over for the stock convention. Mr. Breithaupt met many of his old time friends while here who gave him a hearty welcome.

Mrs. Gerstell and her daughter, Mrs. Hyland together with the latter's little daughter, who have been visiting with Mrs. E. F. Schwartz and family for several weeks, left for their home in Portland yesterday morning. Mrs. Schwartz accompanied them to the metropolitan.

Andrew Irwin was over from Baker for a few days during the week visiting with his former school mates and friends. Andrew has fully recovered his health and stood well in his school classes the past year. He left for his home this morning, going out in company with Rev. B. S. Hughes, who was driving through in his auto.

Miss Della Hodges was among the convention visitors from Prineville. Miss Hodges is the able assistant of F. A. Fowler on his newspaper at Prineville and she proved herself a good newspaper reporter as she never missed anything of the convention during the two days session except a short time at the reception given the visiting ladies at the Commercial club. Prineville is fortunate in having two such energetic people working on the publicity end of the job for they'll make it go good.

WAYSIDE OBSERVATIONS

County Agent—L. E. McDaniels Fine Rains.
 Crop Prospects Good.
 Everybody poisoning squirrels.
 Livestock meeting big success.
 Everybody going home with fresh courage.

Scores of visitors at County Agents Office.
 Less livestock but better—more feed for winter.

First National Bank of Burns to erect a demonstration silo.

Progressive bankers—wide awake boys and girls—allege and pure bred cattle—some combination, Eh?

Don't believe in "Book farming" do you? Neither does the County Agent. Nevertheless modern methods pay when those used by your

fathers fail. Let your pocket book be the judge.

How about your losses from squirrels? This office is catching up with the demand for the poison. Communities are provided for first but in a few days, individuals can have all they desire at the actual cost to the county—4 pounds for a dollar.

Read the local papers for notices to eradicate rodents under the State Rodent Law. This means every piece of infested land must be cleared of pests. Information and blanks can be had from the County Agent for clearing land owned by absentees or those refusing to comply with the law. The county furnishes the poison in such instances and charges it to the tax account of the owners.

Potatoes will be a valuable crop this year so don't plant them without first treating them for scab and other diseases. The following is recommended as the best treatment:

Dissolve 2 ounces of bichloride of mercury (corrosive sublimate) which can be purchased at your local drug store, in a little warm water, then pour into a wooden vessel or barrel containing 16 gallons of water.

Cut the potatoes and cover thoroughly with the solution by dipping—then lay out to dry before planting.

For small gardens one half ounce of mercury to 4 gallons of water.

Do not use metal vessels.

A telegram has been received that the sugar beet seed for free distribution throughout the county has been shipped and will soon be here.

The purpose of distributing these seeds is to learn the extent of the area adopted to the growth of sugar beets in Harney County. The names of at least one good farmer in each community wishing to plant these seeds is desired by the county agent.

There will be several big community squirrel poisoning events pulled off in a few days.

If you are interested in seeing the squirrels exterminated in your section get in touch with your neighbors and see how much poison is required for their lands in addition to lands where the owners are absent.

The county will then furnish the poison at cost through the office of the county agent at 6 pounds for a dollar. If you feel you can mix the poison cheaper than this you can use the following formula which will give results where others will, often times fail.

Mix one tablespoonful of glass starch with one half teaspoon of cold water, and stir into one half pint of boiling water to make a thin clear paste.

Mix one ounce of powdered strychnine alkaloid with one ounce of baking soda (bicarbonated) and stir with the starch to a smooth creamy mass free of lumps. Stir in one fourth pint of heavy corn syrup and one tablespoonful of glycerine, and finally one scant teaspoonful of saccharine.

Apply to 12 quarts of oats and mix thoroughly to coat each kernel.

Each quart of poisoned grain is sufficient for 40 to 60 baits.
 DO NOT PUT THE POISONED GRAIN IN SQUIRREL HOLES FOR IT WILL BE WASTED. SCATTER IT ALONG THE SURFACE OF THE GROUND.

NOTICE

I wish to thank the Republican voters for the support given me at the Primary election May 31, though defeated I am not discouraged and assure you I shall at the fall election try to push the Republican ticket over the top.

Respectfully yours
 W. C. LUCKEY

Have your watch overhauled. Start the old clock ticking, get that old piece of jewelry in wearing order. Have your eyes fitted to Reading glasses, see C. M. SALSBURY jeweler, optician.
