VINCENT-HIBBARD.

(Contributed)

On Wednesday afternoon, June second, at the home of the bride's parents, Dr. and Mrs. L. E. Hibbard, was solemnized the marriage of Roberta Hibbard and Albert C. Vincent, in the presence of a small company of relatives and friends.

The rooms were tastefully decorated with roses, lilies and carnations, while the bower in which the bridal party took their places was of ferns. Miss Eugenia Hibbard, sister of the bride, rendered two appropriate vocal selections in her usual charming manner following which the bridal party entered the room to the beautiful strains of Narcissus played by Miss Mabel Skelton who presided at the piano. Virginia Hibbard, four year old sister of the bride, acted as flower girl, preceding the party and strewing rose petals along their path.

The bride entered on the arm of her father who presented her to the bridegroom. She was beautifully gowned in cream Moonlight metep with rich lace falling gracefully from the shoulders. The long veil was held in place across the softly parted hair by a strand of pearls, while a large bouquet of bride-roses and maidenhair ferns completed the picture. But none of these could enhance the winsome personality of the bride or be compared to the beauty of her character.

The ceremony was beautiful and impressive as conducted by Rev. L. S. Tracy of the church of the Nazarene.

Mr. Harold Saunders acted as groomsmen and Miss Edith Kaino as bridesmaid. She wore a beautiful dress of pink chiffon showing a delicate tint of orange, made in a way that suggested a flower and seemed to be almost a part of the large bouquet of pink sweet-peas which she carried.

The groom is a young man of sterling character who is respected by a large circle of friends. During the recent war he saw active service overseas as a member of the Medical Corps and is now a member of the local division of the American Legion.

The bride has lived in this vicinity practically all of her life and is held in very high esteem by all who know her. She is an alumnus of the local high school and is also a graduate of the Behrke-Walker Business College of Portland. For the past few years she has been employed by the Harney County National Bank of this city.

The magnificent array of beautiful and useful gifts received by this couple indicate the high esteem in which they are held by their friends. An informal reception followed the ceremony and after the guests had extended good wishes and admired the gifts, dainty refreshments were served from a table where pink and white predominated, the center piece being an artistically arranged bouquet of pink Mammon Cochet roses.

The bride and groom left that evening for Salt Lake City and other points of interest to be gone about two weeks. They will be at home on Dr. Hibbard's ranch three miles east of Burns after the first of July.

ALL FOR HEALTH FOR ALL.

The County Public Health Nurse is asking the help of every parent in the County to promote GOOD Health and maintain the highest degree of Efficiency.

This can best be done by a general housecleaning of the body during the summer months. The Modern Health Crusade will play a great part in this campaign, as soon as school opens in the early fall.

At this time the parents or guardians of children, all over the County, are asked to have the teeth and tonsils cared for, and eyes corrected with glasses wherever it is necessary.

If enough children needing such attention, from any one locality, can be gotten together at a time, a clinic can be arranged and transportation expenses saved.

Should there be any parent in the County wishing the advice of the County Nurse at any time, on anything that pertains to the health of the individual, family or the community, a post card stating that she is needed will bring the needed help.

We hope that this will be used to the best advantage of Harney County residents.

GET TOGETHER DAYS

This town should have some definite scheme for getting the people together oftener than has been done in the past.

A clique ridden town seldom prospers to any great extent. There is too much pulling of one clique against another, with the result that but little of a constructive nature is ever accomplished.

If we could have a Get Together Day once a month it would produce beneficial results. It would lessen the breach between the cliques and have a tendency to eradicate them entirely in time.

And with all cliques abolished we could pull together and to good purpose.

What say you, Mr. Man and Mrs. Woman?

BACK TO THE FARM

Is the tide beginning to turn? Young men in some of our big cities are yearning for an opportunity to get onto the farms, and the press is advising such a course.

The wild assiduity and prodigal spendthrift of the cities is palling upon them.

They prefer the freedom and greater security of country life, even if the hours are a little longer and the work a little harder.

They have come to realize that their earnings in the city are eaten up in the profiteering prices now being charged for everything they buy, both essentials and luxuries.

They see nothing ahead of them but a ceaseless repetition of earning it today and spending it tomorrow.

Having brains, they are beginning to employ them to advantage.

And being but a little cog in a big wheel in the cities, they would migrate to the country, where there is room and opportunity for all.

A national campaign for repopulating the farms of the country is one of the prime requisites for a return to commercial stability.

It requires food to keep soul and body together, and food can only be produced where there are men to do the work.

LETTING GEORGE DO IT

In the opinion of the average foreign country America is one vast hive of agricultural industry.

They seem to think that all they have to do is to ask and we will hand over the food.

America has been generous in the past in dividing its food supply with Europe, even when we had to deny ourselves to do it. But the war is over and war conditions and necessities no longer exist.

The American farmer is very short of help and crop outlooks are not of the best, according to published reports.

Experts predict a shortage of food-stuffs next winter, with the possibility of bread and soup lines in the cities of our own country.

If this should happen Europe can not expect us to meekly hand over the food we need to sustain life among our own people.

Exporting profiteers would of course take advantage of the situa-

tion and send food to Europe at enormous gains to themselves. But the public will not have it so. If such is attempted the roar of protest will be long and deep and will engulf any person who attempts to starve American women and children for the sake of selling to Europe at great personal profit.

America asks neither arms nor favors from any country.

We are ready to relieve distress across the water when conditions and humanity permit, but we are not willing to send our own people to bed hungry in order to do it.

Europe can work and produce if it will. It should quit piddling and squawking and cultivate that will.

Letting George do it doesn't appeal strongly to us, especially when we are expected to make of ourselves a universal and perpetual George.

There are so many funny writers in the press now-a-days their stuff is becoming anything but funny.

This is cosoling, very cosoling.

Cable advices tell us that food prices over in Japan are coming down.

J. B. Crozier, the venerable man who has taken care of the Presbyterian church for the past few years, was a caller at this office the other day. Mr. Crozier desired it announced that the Presbyterian church Sunday school would continue meeting regularly at the usual hour as in the past. He stated that the former pastor upon leaving had given out the impression there would be no more Sunday school until fall. The children will find teachers there ready to receive them each Sunday morning as in the past and the necessary supplies to continue the work have been ordered. Please bear this in mind. Tomorrow at the usual hour, 10 o'clock, A. M. the children should be sent to the church.

a lot of other things. There are about 2000 silos in Oregon built out of these materials and about 20,000 built out of hot air.

Most of the farmers you talk to have a spot for the hole all picked out but they hain't never begun to build yet, for some reason or other. Some hain't got money, some can't decide on the kind of a silo, some sez its too much trouble to haul the crop in and up and some are just too dounfounded lazy to even pick out the spot for the hole anyhow. But I'm tellin' you fellers you'd better begin to think serious of this
