 Preach less and Do more  
 Spend less and Save more

The "Save" came last but that doesn't indicate it is the least important.

SAVING doesn't mean saving money alone.

We can and should save in many ways.

They are all worth while, but the Saving of Money is of great importance. It is the **Visible Proof** of our **Ability to Save**.

The man who **Cannot Save** is **Beaten** from the beginning.

Success is not in him.

WE can help YOU save by keeping your Savings in the bank and paying you interest thereon, at 4 per cent compounded twice each year.
