Character, that usually make the rounds of county fairs. Good clean shows will in no way interfere with the educational phases of the fair and will help greatly with the chances.

"I was pleased with the interest in the county fair shown at the Commercial Club luncheon. If every business man of Burns will individually get behind the fair as they are collectively through the Commercial Club, Harney county will have one of the best fairs in the state."

WHEN HARDING GOT HIS DAD'S OKEH AT MARION

When Warren G. Harding, Republican presidential nominee, returned to his home at Marion, O., July 5, the first time since the nomination, one of the most touching scenes was the meeting of father and son. Dr. Geo. T. Harding, now 78 years old, is still practicing medicine at Marion. This photo shows Senator Harding and wife with Dr. Harding. The inset is of James Sloan, former secret service man, who has been known as "Jimmy" to three presidents—Roosevelt, Taft and Wilson. He has been engaged to guard Harding and has established his post on the front porch of the Harding home at Marion.

HORNSBY YOUNGEST OF MAJORS' BIG STARS

Rogers Hornsby, brilliant infielder and batsman with the St. Louis Nationals, is the youngest of the "big league" baseball stars. He was born at Winters, Texas, April 26, 1896—now being just 24 years old. He has starred since 1916.

ROOSEVELT ON WAY HOME VISITS COX

The Democratic nominee, Governor J. M. Cox of Ohio, and Franklin D. Roosevelt of New York, met first since the nominations when Roosevelt stopped off at Columbus, O., on his return from the San Francisco convention. This lower photo shows the meeting of the two. Above is the first picture of wife and the four younger children of Roosevelt, taken at the summer camp at Eastport, Me. The older boy was on a fishing trip when the photographer arrived. The pictures are Elliot, John, Franklin D., Jr., and Anna.

"Help! The ship is sinking."

"What do we care? It doesn't belong to us."

Look what's happening to your ship

Yes, it's yours. Instead of "ship" read "public utility"—perhaps even the Telephone or Electric Light Company in your town. Rates at low tide have stranded it on the rocks, while a surging sea of costs for labor and material breaks over it smoke-stack high.

Whether you're a stockholder or not, through investments by your trust company and insurance company you are part owner in the public utilities. So you are protecting your own money when you see to it that they have a high enough rate to keep going.

These public servants are necessary for your safety and convenience, too. For if electric service were forced to shut down, picture the result—

Telephone communication suspended. Homes deprived of electric light. Theatre and "movie" houses closed. Increased fire risk. Streets unsafe at night.

Even now the Electric Light Companies and Telephone Companies are unable to supply service to hundreds of thousands of applicants. Lack of funds stands in the way of adding equipment to extend the lines.

The reasons for such a condition are different in different places and each case must of course be settled on its merits.

After all, though, it isn't a question of fairness of generosity to the Companies so much as a matter of self-interest to you. "How can I assure myself good electric service?"—that is your problem.

Your law-makers and public service commissions take their authority from public opinion. And public opinion divided by the population of your community is you.
