BETTER FAT RATE VARIES
Butterfat content varies from 3.8 per cent to 6.3 per cent in the production of cow-testing association cows for July, according to the official report by E. B. Pitts, in charge for O. A. C. The high figure from "Pennie," the grade Jersey owned by L. A. McCormack of Tillamook, who broke the association record for high production the month before. Pennie is second for July with 105 1/2 pounds of fat, and her herd mate, "Pal" is first with 107.2 pounds.
