

## Spent 7 Months In Bed, He Says

"I Believe Tanlac Saved My  
Life," States George  
Hastings

"If I had only one dollar left in the world I would spend it for a bottle of Tanlac," said George C. Hastings, who resides at 85 Bell about the good it was doing others years. Continuing, he said:

"Along about the first of the year I began to suffer from a dreadful stomach trouble. I would have such pains I could be heard hollering a city block. I had a poor appetite, and what little I did manage to force down would sour and ferment and I would bloat something awful and I also had pains in my chest and legs. I could not retain a thing I ate and just the sight of food would cause me to become terribly nauseated. I became so weak and dizzy I could not stand without staggering, and if I tried to walk a few steps I would fall down. I finally had to give up and go to bed and was down for seven months. I was very nervous and would not sleep a wink for night after night I was in such misery, and I lost weight until I was nothing but skin and bones. Everybody thought I was going to die and I was told I could not live very long, and I thought so, too. I tried all sorts of treatments and medicines, but none of them did me a particle of good.

"My friends, several of whom were G. A. R. veterans, said: 'George, try Tanlac, because it has helped so many of us,' and as I had also read so much in the newspapers I decided to take their advice. I got my son to bring me a bottle. Well, sir, talk about a life-saver, as soon as I began taking Tanlac I could see a change for the better in my condition, and after I had finished my second bottle I got out of bed and have been up ever since, and the

pains have all completely left me. I have a fine appetite now and can eat anything I want without suffering any bad after effects. I began to pick up and regain my lost weight and feel like a new man. I never have a dizzy spell and I walk all around town as well as I ever did. I firmly believe Tanlac saved my life, and will always praise it, and any one wishing to find out any more about what it did for me can either write or call on me, and I will be only too glad to tell them."

Tanlac is sold in Burns, by Reed and in Crane by Crane Mercantile Co. —Adv.

The fellow who attempts to make something out of nothing sometimes succeeds—to his cost.

If given their choice between a life of happiness and one of sorrow,

### THE UNIVERSITY OF OREGON

—is maintained by the state in order that the young people of Oregon may receive, without cost, the benefits of a liberal education.

The University includes the College of Literature, Science and the Arts, the Graduate School, the School of Physical Education, and the professional Schools of Law, Medicine (at Portland), Architecture, Commerce, Journalism, Education and Music.

High standards of scholarship are made possible by an able faculty, well equipped laboratories and a library of nearly 100,000 volumes.

Supervised athletics are encouraged and every attention given the health and welfare of the students.

With a heightened confidence gained by the recent expression of public support, the University is now entering upon an era of large development and extended usefulness.

some people would be so greedy they would want both.

Just sliding through life is a dangerous practice, and often painful. The pathway is strewn with obstacles and pitfalls, and sometimes with slivers.

'Tis a sad state of affairs, really, but those suffragettes who have been orating over the country must be

terribly lonesome, now that they are out of a job—and the limelight of publicity.

Little children see the faults of others as they are, but often we adults see them as we would like them to be.

We can not expect fortune to smile upon us at all times. A little co-operation is expected from us.

**T**HERE isn't any "country" any more. The automobile has brought the most remote settlement almost as close to the center of things as the next county was in the old days.

To hear some tire dealers talk you might think that nobody knew anything about tires except the fellow from Broadway.

That's not the basis we go on.

We give every man credit for knowing *what he is spending his money on*, whether he drives up here in his small car from ten miles out in the country or is passing through from the capital in his limousine.

That's one thing we like about U. S. Tires.

They make no distinction between the *small car owner* and the owner of the *biggest car in the country*.

It's all the same to them. So long as a man owns an automobile—large or small—he's entitled to the *very best tire* they can give him.

Quality has always been the *outstanding feature* of U. S. Tires. There's *no limit* on the U. S. guarantee. All U. S. Tires are guaranteed *for the life of the tire*.

We have given a lot of thought to this tire proposition. There is some advantage in being the representatives of the oldest and largest rubber concern in the world.

Drop in the next time you're down this way and let us tell you some interesting facts about tires.
