

A DIME A DAY

A silver dime isn't much of a fortune, that's true. But a dime a day saved for a year would be quite a little help. Here are some of the things it would do.

- It would buy you a new suit of clothes.
- It would pay for a weeks vacation this summer.
- It would pay for a lot of Christmas presents.
- It would make a creditable payment on a home library.
- It would buy a watch, an engagement ring, in fact any one of these or a thousand other things you might want.

Don't despise the Dime because it is small. Little drops of water make an ocean.

First National Bank BURNS, OREGON

LOCAL HAPPENINGS

Ole Soderburg was greeting his many friends in Burns Thursday.

Reports are to the effect that considerable snow has fallen in the Steins Mountain section already.

Oscar West was up from the Lawen neighborhood during the week.

Mr. and Mrs. Will Flier were up from Crane Thursday, guests of friends and looking after some business affairs.

James Taylor and wife are just completing a residence on their acreage property to the north of the grade and expect to soon occupy their new home.

Fred Otley was in town during the week. Mr. Otley is active in his opposition to the proposed Roosevelt Refuge bill as it now stands and says we must defeat it by all means.

W. L. Best and A. J. Johnson were among our visitors from the Silver creek section Thursday. Mr. Best was fortunate to receive \$45 a head for yearling calves recently but since that time they have dropped. Some of the stockmen are not offered more than that price for two-year-olds.

J. R. Jenkins was a business visitor the other day.

Mrs. Jerry Dillon was the guest of Mr. and Mrs. Albert Swain Thursday.

Mrs. O. E. Thompson and daughter were in town Monday accompanied by Mrs. Douglas.

I. Weinstein and his son, and Peter Christensen were up from Lawen Thursday.

Mrs. Frances Clark, school superintendent, made a trip to Catlow during the week where she visited with schools.

The present rains have not been of any special benefit but have delayed the harvesting of crops and stacking hay.

J. C. Beatty and his son John are up from their home on Trout Creek. Mr. Beatty is one of the old time residents of that part of Harney county and is one of the substantial men of the community. He has developed a valuable ranch property in that neighborhood, and is still active in community and county affairs. He has strived for better things along the line of agriculture and stock and attained success to such a degree that he is ready to turn over his plant to a younger person to continue. However, he is not a quitter and is still able to hold the reins of his business.

C. T. Miller was in from the Crow Camp this week.

Hugh Tudor, one of the extensive sheep growers of the county, was in Burns on business the other day.

Mrs. A. C. Welcome took her departure Wednesday for Portland to be absent a few days.

A. K. Richardson was a visitor to the Catlow valley country during the week looking after his political interests.

Martin Buck was in town the fore part of this week. He has been in California with his family for some time.

W. C. Cecil, the pioneer stockman of the Silver creek country, was among our business visitors during the week.

E. N. Nelson, Chas. Backus, Geo. Toner and Clyde Embree were among those in from the Dog Mountain and Sunset country during the week. Mr. Nelson is thinking of making a trip to outside points.

B. F. Johnson of the Oregon & Western Colonization Co., arrived from Prineville Thursday afternoon and went to Crane last night to meet President Davidson of the company. They expect to be in this neighborhood for a few days.

A. Barron, the old time shoe repairer, is back at his former position Frank Welcome in the harness shop. He is certainly welcomed by the citizens of Burns who are trying to keep within their means by using patched and half-soled shoes. Needless to say he's getting all the work he can handle.

Addison Bennett has been getting data on the bird refuge bill in this vicinity during the past week and writing his information to the Oregonian. We are on the job at last to defeat this measure but it is rather late in starting. We should succeed in defeating this bill and then if the matter requires further attention all concerned should get together and make such arrangements as are necessary for the bird life and permanency of the present resting and nesting place.

Died—The sad intelligence has been received of the death of Mrs. Lottie E. Harper, wife of J. H. Harper, on September 27, at Tacoma, Wash. The Harpers formerly lived at Narrows. They were married in this city and deceased was well known to the people of Burns and Harney county. She was the second daughter of Capt. and Mrs. A. W. Gowan of this place. She leaves three children and her husband to mourn her. Bereaved relatives in this city have the sympathy of a wide circle of friends.

Bailey Hayes left this week for Monmouth where he joins his wife and two daughters. They will remain there during the coming school year at least.

Mrs. E. B. Hill and her daughter, Miss Harriett are up from the ranch at Trout creek for a short business and pleasure visit. They expect to return to the ranch in a day or two.

Miss Ethel Turner and her mother came up from Andrews yesterday in company with County Agent McDaniel and Mr. Ballard. The Turners will remain in this city for a few days.

Mrs. Stonewall Mothershead left for her home at Edmunds, Washington on yesterday morning, going out by way of Bend in company with Sheriff Goodman who is on his way to outside points on official business. Mrs. Mothershead spent several weeks in this vicinity visiting with relatives and friends.

The Times-Herald is pleased to get so good a report of the conduct of the Harney county High School football team as was brought to it on their return from their games with Prairie City and Canyon City. Although the boys were not victorious in either game, it is a pleasure to find they showed they were good sports and gentlemen. This line of athletics should be encouraged by the citizens of Burns and as indicated at the Commercial club luncheon yesterday, there is a disposition upon the part of business and professional men to give them support.

H. A. Lockett, a cattle buyer, was in this vicinity during the week. He was buying dry cows. It seems there is some difference of opinion as to the market prices of cattle, but the first prices quoted by buyers of \$60 for dry cows, is not being paid. Young steers are moving at a range of up to a little better than \$45 for twos. Three and four year old steers are not finding a ready market, although offers have been made by Henry Blackwell for 5 1/2 cents per pound for them at the railroad point. Whether this will bring the grower what he should have for the stock is problematical, but if the market does not justify better prices it will have to go. However, hay is plentiful this season and some stock men may be able to hold for a better price.

LOST—Between Juniper grade and Lawen, tan leather brief case; O. D. Cener, Corvallis, printed inside flap, some contents addressed to F. L. Ballard. Finder bring to this office.

SEED RYE

"Master of Himself"

GEORGE M. Reynolds, head of the largest bank in the United States outside of New York City, says:

"The man who saves systematically and refuses to risk his savings in fly-by-night ventures proves that he is master of himself."

"In the business world there is scarcely a goal whose attainment will not be made easier by the systematic accumulation of capital."

This bank is glad to help a man save and become "master of himself" by paying 4 per cent. on his savings.
