Saturday, October 30, 1920.

The voters of Oregon are not going to turn down Geo. E. Chamberlain with his record as chairman of military affairs during the war and his general standing as a national character, with the influence he has gained during his incumbency in office and put in his place a man who cannot compare in any respect to him as a statesman.

better sanitary conditions and more comforts for the boys in the camps and cantonments. Don't be foolish and let the professional politician try to make you think you must vote for this or that man because of partisan prejudice, we certainly don't want "to cut off our nose to spite our face."

MOTHERS CLUB ACTIVITIES

(Contributed)

The last meeting of the Mothers Club was on October 21st at the home of Mrs. A. K. Richardson where Mrs. J. E. Sizemore and Mrs. H. J. Hansen were hostesses. The particular subject under discussion during this meeting was the annual Thanksgiving ball which has been given under the auspices of the Club for many years. This promises to be "an event" as is the custom.

The afternoon was very pleasantly spent with a good attendance of the membership. Refreshments were served. The next meeting will be with Mrs. Jessie Moulton on November 4 with Mrs. James Lamphire as joint hostess.

A WORD ABOUT THE ELECTION

The Times-Herald is not going to preach to the citizens of Harney county on how to vote on this or that measure or this or that candidate. The people of Harney county are just as intelligent as in any other part of the country and when they are posted on issues and candidates need no advice from a newspaper. Those bills that vitally interest this part of the country have been given consideration by the papers and the people know how to vote on them. The candidates should be considered in the same light. The political affiliation has nothing to do with the qualification of the aspirants and that's what we are looking for—competent, efficient officers to serve us. Weigh the qualifications of each and cast your vote accordingly and you'll make no mistake.

ANNOUNCEMENT

Voters of Harney County:— My name is on the ballot as Democratic nominee for State Senator and I appeal to you for consideration when your ballot is cast.

Being a business man, my belief is that legislation is really business, and playing for political advancement is no part of my creed; if the people of the district send me to Salem, I will work for those things that are beneficial to the stockmen and farmers of the district, these industries being almost our sole support; the road work should be continued and at a lower cost the people who pay the freight (taxes) must be considered and given their money's worth; the trend of each legislative session is to increase expenses, and this trend will be fought if I am elected.

Yours for service, W. F. ROMAN.

Harold Johansen was in town Thursday and informs us he has returned to Harney county to make his home and directed his paper be sent to Drewsey.

Harney County High Wins

(Continued from page one) A large turn out is expected today for local enthusiasts are certainly supporting the boys. A banquet at the high school under the auspices of Miss Hazel Freese, assisted by a loyal, willing group of girls was tendered to the visiting and local players followed by a dance at the Tonawama which was well attended. The same hospitalities will be tendered the Prairie City High School.

WAYSIDE OBSERVATIONS

L. E. McDaniels, County Agent Mr. Stockman And Farmer Of Harney County Have you the backbone And the every day common sense Of the coast CRANBERRY grower Who through COOPERATION and ORGANIZATION. Now control the selling price of their crop. If you don't believe it just wait till you buy a quart for Thanksgiving dinner—if you can afford it. If you can't afford it there is no one to blame but yourselves as you have the same opportunity they had. The only difference is that they knew they were being robbed and sought for and APPLIED the remedy. While you fellows absolutely confirm the time worn statement of the soap box orator that "The Farmers Won't hang together."

You all know you are robbed of the right to a reasonable profit on the stuff you produce yet the most of you limit your search for a remedy to cursing the other fellow. There are stockmen and farmers in this county that haven't seen the color of a dollar, other than one borrowed from the bank or drawn from their account, for three years or more yet prices of all retail meats were never higher. Those of you who have been "honored" by having a buyer offer you the magnificent sum of \$30 to \$35 for your top yearlings—they don't want anything older—will not realize the price of the hay you put in to them.

Those of you who have not been so "honored" are wondering where you are going to get off with the banks refusing to allow you to pyramid your loans and yet to many it has not occurred that you really have the remedy within reach. You not only have it within reach but in the HARNEY COUNTY LIVE STOCK ASSOCIATION A COOPERATIVE ORGANIZATION of Stockmen and Farmers you have means of applying the remedy if you really care to apply it.

As we have tried to make you see—and as you are intelligent enough to know THE REMEDY IS ORGANIZATION, and in the Association which is now organized and waiting for you to ratify the election of officers—you have the means of applying that remedy. The entire matter is now squarely UP TO YOU. Whether you wish to remedy conditions is your business entirely and no one is going to force you to join the association or to do anything you do not wish to do. However if you are not a member or do not intend to be a member at least be man enough to place the blame squarely where it belongs—WITH YOURSELF and quit cursing the other fellow because you are not getting as much out of the game as you put in.

Now follows some 240 of you have signed applications to become members of the county organization. Have your feet grown cold or do you think hauling a load of hay or riding over the hills for a yearling—that you can't sell for what it cost you—is of more importance than attending the first regular meeting of the association which will be held in the Commercial Club rooms at BURNS, NOV. 6 at 10 o'clock in the morning? If you do think so that is your business and by staying away you are doing the others no particular harm. If you think the Association conducted in a business like manner by live wire stockmen can be of benefit to you—or you to the association—we want you to come and

LETS GO!

Farmers Exchange Burns, Oregon

AN APPEAL to the Voters of Oregon

The Port of Portland Dock Commission Consolidation Bill on the state ballot should be defeated. While it no doubt affects the whole state in some degree, the enormous expense which it will create must be borne by the taxpayers of the Port of Portland, which contains, 209 square miles, or less than one quarter of one per cent of the area of the state. The Chamber of Commerce, the Taxpayers' League and other Portland organizations and many representative business men have joined hands to acquaint the voters of Oregon with the facts to enlist their opposition to the measure.

The scheme of improvement proposed by the bill will cost \$40,000,000. As a starter, \$16,500,000 of bonds are authorized. In violation of the home rule provision of the Constitution of Oregon, the voters of the Port of Portland are denied the right to say how large a debt they are willing to assume. Nor are they given a voice in the selection of the commissioners who are to vote bonded debt upon them, levy taxes for them to pay and manage their business.

The electors of the territory within the Port of Portland are better qualified than any one else to judge of the amount of bonded debt they should authorize or the taxes they should pay. Their liberality in assuming burdens of public improvement, not only for themselves, but for the state at large will not be questioned by any one who will scan the record of the huge total of bonds they are now carrying, amounting, in round figures to \$34,000,000. It cannot be thought that the state will be the gainer by imposing upon its chief city the insupportable load of additional debt contemplated by the pending bill.

The sponsors of the Port of Portland bill have openly appealed to the electors of the state at large to vote for it on the ground that it will cost them nothing. This is log rolling of the most dangerous type. If such methods are to prevail in behalf of direct legislation, no county, city, port or other municipal corporation in the state will be safe from having intolerable debts and taxes foisted upon it by indifferent voters from other parts of the state. Bills like this must be rejected by the voters if home rule is to retain its vital force. Home rule and such bills cannot survive together. One or the other must fall.

The voters of the Port of Portland are not asking to be relieved of their responsibility to create and maintain the necessary facilities for ocean commerce. They desire only that they be given a voice in the management of their affairs, and that, through the established processes of law, they be permitted to adopt a plan of port development which will not load millions of dollars of debt upon them.

Voters are requested to vote 311 NO.
