

On Thanksgiving

We are thankful—
 That America stands united and powerful;
 That brave hearts and broad oceans guard us from any foreign danger;
 That education, equal rights and democracy find free expression here;
 That opportunity lies on every hand and every man has a chance to win and advance;
 That practically every man has work, good wages and a chance to save for the future;
 That an American dollar is worth a dollar and when we earn one we have something better than a bale of European paper money.

THE TRUE SECRET OF SUCCESS IS THRIFT, AND PRINCIPALLY AS APPLIED TO SAVING.

—Sir Thomas Lipton.

PARENTS DAY AT PUBLIC SCHOOL WEDNESDAY, NOV. 28
 Principal W. M. Sutton of the public school announces that he has made "Parents Day" this year on Wednesday, Nov. 28 the day preceding Thanksgiving. The parents and patrons of the school are extended a cordial invitation to visit the school building at 1:30 on that date. They will first gather in the assembly room where a short program will be rendered, following which they are at liberty to visit the several rooms and inspect the work of the pupils as has been the custom on previous occasions of this character.
 Mr. Sutton had desired to arrange something special for this week because of it being designated as National Education Week, but was prevented from participating for various reasons, therefore he will extend it on and include the observation next week.
 Parent Day has become a fixed thing in the schools of Burns and has a place in it. Parents and taxpayers avail themselves of this opportunity to pay their respects to the school.

Mr. and Mrs. John Witzell, pioneer residents, were among our visitors during this week. John is delighted with the railroad building to Burns.

The First Thanksgiving Day

THE first Thanksgiving Day was a day of gratitude for saving. The Pilgrim Fathers had stored up a provision against the future, and we still celebrate the day on which they thanked God for it.

Why not institute your own Thanksgiving Day this November by storing up a provision for the future with this safe bank?

It may not be a large one, but it will be something to build on. One dollar will open a savings account here and every year will see you more than thankful that you opened it.

 "YOUR HOME INSTITUTION"

Why does it thunder?

—because electricity (lightning), in passing through the clouds, meets resistance which causes heat. This heat makes the air expand in violent waves which thunder against the eardrum. Always take
