

Easter Greetings

Easter is a glorious season. Not only is it of religious significance but all Nature bears evidence of renewed life. The song of the birds is heard—buds and leaves peep forth and the breath of Spring is in the air.

In tune with Nature we feel a quickening of the spirit, renewed life, enlarged hope and strengthened courage.

Easter comes as a special blessing to those who are discouraged and who are scarred with the battles of life.

This bank extends EASTER GREETINGS to all and earnestly hopes it may effectively aid in keeping up your hope, your courage and determination—qualities which will win victories in the future.
