

## Easter Greetings

Easter is a glorious season. Not only is it of religious significance but all Nature bears evidence of renewed life. The song of the birds is heard—buds and leaves peep forth and the breath of Spring is in the air.

In tune with Nature we feel a quickening of the spirit, renewed life, enlarged hope and strengthened courage.

Easter comes as a special blessing to those who are discouraged and who are scarred with the battles of life.

This bank extends EASTER GREETINGS to all and earnestly hopes it may effectively aid in keeping up your hope, your courage and determination—qualities which will win victories in the future.

"Suppressed Desires" brings out the condition of mind and the trend of the present times. We're inclined to disregard the conventional and lean more toward our individual inclination regardless of consequences. Give the young people some attention.

I. M. Davis was over from his Drewsey home yesterday. Mr. Davis is taking an active interest in furthering the candidacy of W. T. VanDerveer for county commissioner. He is an aggressive man and would be a live wire on the board.

Even though the foot and mouth disease has been responsible for the destruction of thousands of head of cattle in California it is not having much effect on stimulating the market for beef in this state, according to information received. ### MOTHERS CLUB

(Contributed)

A very interesting and enjoyable meeting of the Mothers Club was held at the home of Mrs. W. M. Sutton Thursday afternoon when Mrs. Russell Smith joined as hostess. The membership was well represented besides a number of invited guests.

The Chautauqua banks for the children were assigned to several members to be distributed among the children at an early date as an incentive to saving for their Chautauqua season tickets as well as to bring to their minds the coming of the annual educational event.

Following the business session a program of more than usual interest was listened to. The child welfare and juvenile protection is a subject that is receiving market attention by the club during the present month. Papers on the subject were read by Mrs. John Caldwell, Mrs. Claude Brown, Mrs. Clarence Young, Mrs. Gus Bardwell, Mrs. Frank Hossman, Mrs. Bert Richardson. Interspersed with these papers were some well enjoyed diversion in musical numbers, among them a piano solo by Mrs. Harris; vocal solo by Mrs. C. H. Leonard with a violin obligato by Alex Eggleston. Miss Annette Leonard rendered a pianologue, vocal solo by Mrs. Olson and a duet by Mrs. Olson and Mrs. Leonard with Mrs. Harris at the piano.

While the subjects connected with the child are always interesting and given first consideration of the club members, these entertaining numbers are most welcome and add much to the enjoyment of the meetings. Delicious refreshments were served.

The next meeting will be at the home of Mrs. Cary Thornburg on May 8.

## A Fresh Start

A J. Nature feels the urge of life these early spring days. Everything around us is taking a fresh start.

The wind is from the south and the tulips are pushing their stiff green leaves through the warm brown earth up to the sun. Soon the lilacs will be budding.

Some of our savings accounts have wakened up this springtime too, and are growing more rapidly than ever. Frequent deposits and compound interest insure a healthy growth. Make a deposit every pay day.
