CARELESS SMOKERS START

According to Forest Service figures during 1923, in the Nationi Forcuts of Oregon and Washington 168 forest fires were directly due to amokers. On account of this hazard, many acres in the National Forests of these two States have been closed to smoking this season.

This carelessness with cigarettes, cigars, pipe ashes and matches was the cause of 862 forest fires on all of the National Forests of the United States in 1923. According to Forest Service data damage caused by the careless smoker in the woods is estimated at \$31,000, outside of the indirect and intangible damage to young forest growth, watershed protection, recreation and wild life. Forest officers attribute the greater num- requires careful handling and prop ber of smoker's fires to the use of use of fertilizer. Definite amoun the "tailor-made" cigarette, the pa- of plant food, especially nitroge per on which is said to be especially sulfur, phosphorus, and potassite treated to hold fire. It is said that are required for crop production many lumber operators in the Pacific Northwest are forbidding the use of plenished most economically, cigarettes in their woods operations.

Forest officers are endeavoring to prevent the starting of forest fires by smokers by four means-by try-

29 and 30, if any

## No Car Like It!

42 horsepower! 50 miles and more an hour-hour after hour -without over-heating-without loss of power-without carbon cleaning!

And at the end of a long sustained high speed, your motor will be cooler, will need less water than any similar sized poppet-valve engine.

This engine's power curve keeps climbing up while the power of a poppet-valve car is dropping off. Furthermore, the Willys-Knight is entirely free from those engine repairs which make up 50% of the upkeep cost of practically all poppet-valve cars. It has no cams—no springs—to get out of order. A car you can keep season after season. Take a ride today.
