LAND NEWS.

Heroic Treatment Given Mr. Holman's Suspension Bill.

The bill introduced by Mr. Holman on August 28, entitled "A bill to suspend all laws touching the disposal of public lands, except the homestead law, and for other purposes," to which reference has twice been made by me, came up for action in the House of Representatives on the 21st inst., and was most thoroughly pruned.

The entire first section of the bill, as originally presented by Mr. Holman, was stricken out, which removed nearly all of the provision against which objections were directed, leaving only that portion relating to railroad grants.

The public land laws will continue to be executed as heretofore. Persons who have made pre-emption filings and timber-culture entries may legally perfect title. Those who made homestead entries with the understanding that they could commute the same to cash at any time after the expiration of six months from date of entry, will be permitted to complete the same in accordance with the terms of their contracts, and persons who accepted pledges of the government redeemable in public land for waivers of valid and valuable claims, may continue to locate their scrips.

The people of the great Northwest are to be congratulated upon the escape they have experienced, as nothing could have more seriously injured the growth of their section than the passage of the bill as introduced.

The bill was so changed that the title was found inapplicable, and "A bill relating to railroad land grants" was substituted. It simply provides that during the pending of the measures now before Congress in relation to the forfeiture of certain lands heretofore granted by Congress to railroad corporations and thereafter, no act done or performed by any such corporation shall in anywise enlarge the right or claim of any such corporation to any lands covered by any such grant, or diminish any right now existing in the United States to declare the forfeiture thereof. This provision shall not be construed to in anywise affect or diminish or waive any right now existing in behalf of the United States to declare the forfeiture of any of the lands embraced in any such grant.
