THE SECOND YEAR OF

EAST OREGON HERALD

Began on Thursday, November 29, 1888.

Now is the Time to Subscribe.

AND TO RENEW EXPIRING SUBSCRIPTIONS.

THE HERALD

Will be the representative, at all times, of the Interests of the People. At all times advocating measures that look to the "greatest good to the greatest number," in accordance with the principles of Democracy

AS A LOCAL NEWSPAPER,

THE HERALD acknowledges no superior in Eastern Oregon. It points with price to its well-filled columns the past year, and to its evident progressive influence upon the prosperity of the great Harney valley. As in the past so in the future it will strive to make prominent note of every enterprise calculated to benefit the people; to record every advance made in showing up the resources of the Valley; to advocate Law and Order under all circumstances; to frown upon all attempts to foment discord among the people in the interest of any individual, clique or faction; to give the NEWS of the day impartially and as fully as industrious effort and the aid of friends may enable us to obtain it; to give all the Local and Personal gossip of our section, suitable for publication, with all else of interest in this department;

IT WILL BE AN EPITOMIZED HISTORY OF THE VALLEY.

All Rustlers

Who know that in the rapid growth and wide proclamation of the advantages of Harney Valley lies their own best road to prosperity

Should Subscribe for the Herald Themselves, AND SEND EXTRA COPIES TO EASTERN FRIENDS.

The East Oregon Herald

Has successfully maintained itself through an ordeal of local opposition, vindictive and unscrupulous to a degree seldom equalled in country journalism; has advocated unflinchingly the rights of ALL the people of East Oregon generally and Harney Valley especially against the machinations of all organzed petty cliques that sought by fraudulent misrepresentation to advance the private interests of a few at the expense of the many. Believing that "The sober second thought of the people is always right and always effective," and that Truth is mighty and will prevail," THE HERALD has steadfastly followed THE RIGHT, and the people have given it a moral and material support that renders its permanency beyond question. As it has worked indefatigably and unselfishly in the interest of the people, it now asks for patronage that will yield something more than a bare existence. It has become valuable to all as a general newspaper, and

Is Now a fixed Institution of the Valley.

THE EAST OREGON HERALD

Beston Agency with DENNY, RICE & CO. Has, from the initial number to the present, persistently and impressively maintained that the Harney country was one of the finest sively maintained that the Harney country was one of the finest agricultural regions in the Union, needing only the presence of industrious farmers to develop its wonderful resources. To prove the truth of the strong language in its columns, the proprietor gave up a part of his office room to the exhibition of the products of the Valley, and urgently asked for specimens of actual growth and for everybody to call and inspect them. Attached to each specimen was the name of the producer, often with the mode of cultivation. This was a tangible, practical presentation of the matter, which any one could verify. How successful this movement has been, hundreds can testify. All THE HERALD asks in return for itsefforts to serve the people, is an increase of public patronage-a modest request when it is considered that it returns to each patron more than his money's worth. If each resident of the Harney country will subscribe or renew for himself and take one or more copies to send abroad, it will so extend THE HERALD's sphere of usefulness as to enable all to claim that it

Is a true Advocate of the Harney Country.

MEDIUM OF ADVERTISING,

THE HERALD presents unusual advantages. It is centrally located in a new and rapidly growing country, where manufactures of all kinds are needed. We will soon have direct railroad communication with Portland and the East. Live business men of both sections should USE THE HERALD'S columns to secure this great and growing trade. Its rates, proportioned to its circulation, are reasonable.

A limited number of guests can secure the most comfortable lodging rooms in the town at this home. Tables supplied with all kinds of eatables the market affords.
