## THE EAST OREGON HERALD

Has, from the initial number to the present, persistently and impressively maintained that the Harney country was one of the mest agricultural regions in the Umon, needing only the presence of indus- PEACHES, FLOWERS,..... trious farmers to develop its wonderful resources. To prove the truth of the strong language in its columns, the proprietor gave up a part of his office room to the exhibition of the products of the Vaney, and urgently asked for specimens of actual growth and for everyt dy to call and inspect them. Attached to each specimen was the name of the producer, often with the mode of cumvation. This was a tangible, practical presentation of the matter, which any one could verily. How successful this movement has eeen, hundreds can testify All THE HERALD asks in return for itselforts to serve the people, is an increase of public patronage—a modest request when it is considered that it returns to each patron more than his money's worth. if each resident of the Harney country will subscribe or renew for armself and take one or more copies to send acroad, it will so extend THE HERALD's sphere of useRimess as to enacle all to claim that it Is a true Advocate of the Harney Country.

#### MEDIUM OF ADVERTISING.

THE HERALD presents unusual advantages. It is centrally located in a new and rapidly growing country, where manufactures of all kinds are needed. We will soon have direct railroad communication with Portland and the East. Live business men of both sections should use THE HERALD's columns to secure this great and growing trade. Its rates, proportioned to its circulation, are reasonable.
