This Eden will not long remain in an unsettled state, but in a few short years this land will be all taken, the golden opportunities now offered will be improved.

The climate is salubrious and will compare favorably with any other part of the "Inland Empire." Burns and Harney are the principal towns and in fact are the only towns in the Harney valley. These towns are about fifteen miles apart in the northern portion of the valley. Both towns have an

Peter French, J. S. Devine and the L. F. Co. These parties are all said to be millionaires and their wealth is variously estimated from one to fifty millions.

The L. F. Company have lately consolidated their stock and land interests here with Mr. Jno. Devine, and are partners as "Lux, Miller. Mason & Devine" and are known on this coast as the Pacific Live Stock Association, which is perhaps the strongest on this coast if not the strongest in the world. Their dominions extend from Grant county, Or., to the southern confines of Cal-Or., to the southern confines of California. They can travel hundreds of miles from here in a southerly direction and camp every night on their free-holds. Peter French Esq. HARPER'S BAZAR. The Hennin has steadfastly followed THE RIGHT, and the people have given it a moral and material support that renders its permanency beyond question. As it has worked indefatigably and unselfishly in the interest of the people, it now asks for patronage that will yield something more than a bare existence. It has become valuable to all as a general newspaper, and

Is Now a fixed institution of the Valley.

THE EAST OREGON HERALD

Has, from the initial number to the present, persistently and impressively maintained that the Harney country was one of the mest agricultural regions in the Union, needing only the presence of indus- PEACHES, FLOWERS, trious farmers to develop its wonderful resources. To prove the truth of the strong language in its columns, the proprietor gave up a part of his office room to the exhibition of the products of the Vailey, and urgently asked for specimens of actual growth and for everyl dy to call and inspect them. Attached to each specimen was the name "Unknown," by Mrs. E. D. E. N. Sou'hwerth. Ledger Library No. 2: Paper, Soc; Bound, \$1.00.
"Gunmaker of M. Seow," by Sylvanus Cobb. Jr. Ledger Library No. 2: Paper 25c; Bound, \$1.00.
This was a tangible, practical presentation of the matter, which any one could verify. How successful this movement has been hundreds can testify: verify. How successful this movement has teen, hundreds can testify All THE HERALD asks in return for itsefforts to serve the people, is EVERGREENS, an increase of public patronage-a modest request when it is considered that it returns to each patron more than his money's worth. If each resident of the Harney country will subscribe or renew for himself and take one or more copies to send abroad, it will so extend THE HERALD's sphere of usefulness as to enable all to claim that it

Is a true Advocate of the Harney Country.

MEDIUM OF ADVERTISING.

THE HERALD presents unusual advantages. It is centrally located in a new and rapidly growing country, where manufactures of all kinds NUTS, FRUITS..... are needed. We will soon have direct railroad communication with Portland and the East. Live business men of both sections should use The Herald's columns to secure this great and growing trade. Its rates, proportioned to its circulation, are reasonable.
