Buchanan and Martin got in with a load, each, of freight for the W. E. Grace drug store.

There was a social hop at the Riley school house, the evening of the 25th, that was an enjoyable affair.

Silver State: Stauffer & Sweetser shipped ten car loads of beef cattle to San Francisco, last evening, 24th ult.

Post office department has decided "Wash," as the abbreviation for the long name of the State of Washington.

A little daughter of Simon Lewis, who was taken sick a week ago, last Friday became so much worse that Dr. Embree was sent for.

Go to the Livery and Feed Stable of Reed & Cavin at the old Pioneer stand in Burns, when you want to obtain good livery accommodations.

Ladies coming in from the country to shop, will find the Parker House the very place to get a good, nicely cooked, palatable dinner.

THE HERALD this week received its full and complete mail service, which gives us the opportunity to publish latest state and foreign news up to Oct. 25-31.

Lon. Cleaver, of Baker City, is to take Henry Rinehart's position as register of the La Grande Land Office, and A. C. McClelland, of Island City, J. T. Outhouses' place as receiver of same office, some time this month.

O. Chandler, from White Horse is boring an artesian well in the west end of the new livery stable. He has gone 60 feet to date. If he makes a success the citizens of Burns will amply reward the enterprise.

Mrs. A. C. Worthington, of Burns, starts on Monday, to take charge of the Poison creek school. Mrs. W. brings with her from her late home in Hedrick, Iowa, the highest testimonials of scholarship, and theory and practice in school teaching.

The "Texas" stands out bold, grand, and majestic as a Club Room, Amusement Hall, and Evening Resort, and holds out for Refreshments whatever is called for in Wines, Brandies, Whiskies, Beers, Temperance Beverages, Cigars, etc., in any style ordered.

Louis Schaedlich, of Blanton, was in Burns, Friday and Saturday, and made final proof on the ranch, in Silvies valley, he has selected for his home. According to our opinion here is a first-rate chance for some good and industrious German girl to secure a fine, large, and handsome German farmer for a husband.

Mr. and Mrs. W. L. Blake, of Mitchell, with their children, three daughters and two sons, passed through Beulah, last week, on their way to a new home in Idaho, where they decided to locate their sheep ranch, instead of Harney valley. We wish them a pleasant trip and a prosperous future, such as the industrious and honest deserve.

The St. Francis Academy, Baker City, has the following Harney county pupils, the present session: Zella Bailey, Clara and Bessie Stenger, Nora McCoy, Jennie Racine and Francis Hewitt. This number will doubtless, be doubled next year, unless Burns is able to establish a central school with two able teachers under a three-years contract, which is not at all likely.

Prineville News: Cal. Gear, of Silvertown, passed through town on Wednesday en route to Harney, where he has bought a place.

Mr. Gear is arranging to go into the nursery business next season, and without a doubt will make a financial success of the enterprise, which will receive the hearty support of every resident citizen in our county.

Three sacks of cats are so much needed by Prof. Hafford, of Milton, to use in his instructions to his pupils in chemistry, that he advertises a liberal prize. There is nothing like a telling illustration in teaching any study. One of our local teachers accustoms the pupils to hunting up the bones of cattle, coyotes and rabbits for use in the classes in physiology, and it is astonishing to see how rapid is the progress made in that usually dry study.

Bedrock Democrat: "About \$800 has been raised in The Dalles to defray the expenses of boring an artesian well. The stock is divided into shares of \$50 and stockholders are restricted to one share each."

THE HERALD is often asked the question, "What has become of the Burns Artesian Well project?" We can only answer, all sight or sound of facts pertaining thereto, is lost. We were promised the several subscription papers to copy so soon as they came in, and there our knowledge ended.

Baker City Reveille Oct. 30: The colored murderer, Gibbs, passed through Tygh valley and crossed Sherar's bridge last Monday. He crossed the bridge about 9 o'clock, Monday morning, bought a lunch, and continued on his way. Between Sherar's bridge and Salt Springs he purchased another lunch and engaged supper at Salt Springs that night, continuing on his journey without stopping. He was dressed in light clothes and wore a blue shirt, and is a light-complexioned mulatto. He was continuing on the road to Canyon City, and told all persons who made inquiries that he had been working in a saw mill. There can be no reasonable doubt that this is Gibbs, as from his appearances and actions he gave unmistakable evidence that he was attempting to hide his identity.

Go to Tupker's. Horse shoes, nails, and all kinds of wrought iron worked into shape to suit the public. Horseshoeing and other blacksmithing done on quick time at Tupker's.

Basket Social. The Burns Ladies' Aid Society will give a Basket Social at the M. E. church, on the evening of Nov. 8th. The ladies of Burns, Harney, and vicinity, are solicited to be present with a small lunch basket, sufficient for two; these to be sold to the highest bidder. Proceeds for church purposes.

BURNS LADIES' AID SOCIETY. Millinery Opening in Burns, Thursday.

The Gage Sisters have a formal opening of their new store in Burns, Thursday (Nov. 7), Friday and Saturday (Nov. 8, 9), and extend cordial invitation to all the ladies of Harney county to call in and inspect their handsome display of the latest styles in milliner goods, received direct from New York City. Give the new store a visit of welcome, whether you wish to purchase, or not.

The Trial Trip.

THE HERALD, and Free Press for four months, if you order in this or next month, for only 90 cents.

A Reported Newspaper Change.

As we understand, a number of Republicans met last Saturday evening, formed themselves into a Joint Stock Publishing Company, so as to put the Items in the field during the coming State and county political campaign as a Republican journal—the main spoke in the wheel, however, is retained to direct its course (as hitherto) on the sea of journalism, so that its spirit, if not its voice, will be the same as ever. For it is by a past record the future is to be read.

If the above be true, or not, we cherish the hope that it has undergone a sufficient change of heart to turn its energies into the work of organizing the discordant elements among the people into harmonious action for the development of the resources of the country, instead of keeping up a strain of dissension over local questions that (through exchanges with other papers all over the State) has served to give Burns and the Harney country a name for lawlessness neither deserves. Let it take as strong a stand for its political principles, if they be Republican, as it pleases, THE HERALD will co-operate in all except its work for that party.

THE HERALD has ordered additional supply of new display type so as to keep it the best looking paper in the county.
