REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder. "I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances.

E. G. Love, Ph.D.

"It is a scientific fact that the Royal Baking Powder is absolutely pure. The Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.

"The Royal Baking Powder is purest in quality and highest in strength of any baking powder of which I have knowledge.

"WM. McMurrie, Ph.D.

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American Institute, New York, and at State Fairs throughout the country.

No other article of human food has ever received such high, emphatic, and unfersal endorsement from eminent chemists, physicians, scientists and Boards of

Note.—The above Diagram fillustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, besides affording the advantage of better work. A single trial of the Royal Baking Powder will convince any fair minded person of these facts.

* While the diagram shows some of the alum powders to be of a comparatively high degree of strength, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength, are to be avoided as dangerous

it! I only said Mrs. Allen was a very well-informed woman, and I wished you would follow her example."

Mrs. Lee. "Yes, and last week you said you wished I could manage to look as stylish as Mrs. Allen,—and she makes all her own clothes. But she has what I haven't."

Mrs. Lee. "What is that?"

Mrs. Lee. "What is that is going on, and is bright and everything is so beautifully illustrated, too. Every time Mamic goes over to the Allen's ebecomes back and teases me to get you to take Demorest's Family Magazine, as the stories are so good. Ever the boys watch for it every month, as a place is found for them also in its pages; and Mr. Allen swears by it. It is really wonderful how it suits every member of the family !"

Mrs. Lee. "I see that W. Jennings Demores, the publisher, 15 East 14th Street, New York, is offering to send a Specimen Copy for locents, so we can't lose anything, as each number contains a 'Pattern Orler' entitling the holder to any Pattern Orler' entitling the holder to any Pattern Orler' entitling the holder to any lose should be a lacket patern like Mrs. Allen's.
