high and low, without distinction; working against monopolies, corporations, and syndicates, whose sole aim is to get the reins of government in their own hands, and run the machinery in their own interest. The Democratic party has, at all times, and upon all occasions, thrown bombs into their ranks, striving by every honorable way and means to break their power and influence. The people of Oregon know these facts. Does the Republican party suppose Democracy to be asleep and not awake to its best interest and welfare?

The county-seat question is one in which we are all interested. We are for Burns, of course; our interest is here; not only that, but we are persuaded it is the proper place for the county town. It is the best location in the county. It is the main business town and will be until we get the railroad. The country around it, we think, superior to that in the vicinity of any other town. The business men of Burns have offered a court-house, gratis, and to foot the expense of moving the county records. With all due deference to Harney City, or any other place, if any, we are compelled to say that our town has certainly the advantage, we think, in every respect. We do not censure Harney City for the effort its citizens are making; it is business for them to do so.

The offer made by the business men of this place is certainly a great inducement to tax-payers to vote for Burns. The building offered is suitable in every respect, and will answer the purpose intended, for quite a number of years, until the county settles up and we feel able to build such a court-house as the citizens desire.

The Herald is, has been, and will be in the future, a straight-out-and-out Democratic paper, devoted to the interest of the party, and the editor feels that in serving his party, devoting all his energies in behalf of the same, he is only carrying out his conscientious convictions, politically.

Notwithstanding, we do not censure any man, personally, for believing and advocating a different policy antagonistic to ours, but the gross mistakes, the mammoth swindle, and frauds perpetrated by monopolies and corporations, and undoubtedly sanctioned by the party in power, leads us to believe, without a shadow of doubt, that it is only through the Democratic party can we effect the reformation necessary to prove to the world that man is capable of self-government.

Feeling as we do, it would be impossible for us to run an independent paper, because our desire is to work for the party, to, if possible, increase its numbers, its strength, and its usefulness, to unite the party, to keep down, as much as in our power lies, all factions, all disorders, and everything that has a tendency to divide or disrupt the party in our town, county, State, or Government.

Knowing that in "union there is strength," we know that it is perfectly natural for the Republican party in counties or States, where the Democratic party has a small majority, to, if possible, cause a split in the Democrat ranks, thereby gaining a victory for themselves, but we have too much confidence in the Democrats of Harney county to believe for an instant, they will be led into any such trap, and especially at the coming election. This being the first general election held in the county, we hope and believe that every Democrat will put his shoulder to the wheel, and by their vote establish, beyond a doubt, Harney county as one of the Democratic counties of Oregon.

The Democracy of Harney may rest assured of the fact that the Republicans will not leave a stone unturned, or a chord unstruck to accomplish their ends. They think and work on the principle that "the end justifies the means," for which we do not blame them, if their work is honorable, manly, & right; for a work, but we wish to warn our party in time, hoping it will stimulate and arouse a spirit of energy for the work in our own ranks, so as to make it certain that we may show our whole strength at the coming election.

Ex-Representative Symes, of Colorado, is here opposing Secretary Windom's silver bill. The House committee in charge of the bill has invited Mr. Windom to appear before it and submit his views.

Another big Republican editor has been provided for by the administration. Charles Emory Smith, editor of the Philadelphia Press goes to Russia as minister.

The anti-administration Republican Senators did not make much of a showing when it came to a vote on the confirmation of Mr. Morgan the Commissioner of Indian Affairs. Only two of them voted against the confirmation.

HERALD'S WASHINGTON LETTER

(By our regular correspondent)

Mr. Reed's puppets, the Republican members of the House, have humbly obeyed their master's orders and the new Rules have been adopted by the House. The Democrats made many protests against being robbed of their rights but their arguments did not cause a single Republican to vote against the edict of the boss—nobody supposed they would. Now that the bars are down and that Congress practically consists of Speaker Reed and the Senate there is great rejoicing among that thrifty class of people who thrive on extravagant government appropriations, and if one may judge from the number of schemes now before Congress calling for large amounts of money which seem to have the endorsement of leading Republicans, they have reason for rejoicing. If only one-fourth of the money asked for should be voted by Congress, the Treasury would be empty. The country may safely count on the Democrats of the House to keep posted on what is going on, if they cannot check the extravagance.

Senator Blair spoke four days on his educational bill this week. The opponents of this measure in the Senate have been working very quietly to defeat it, and now they are confidently claiming that a majority of the Senators are pledged against it. In spite of this claim the general impression is that the bill will pass.

Col. Lamont, who was formerly Mr. Cleveland's private secretary, was in Washington this week for part of a day. He said his visit was a business one, but lots of people thought there might have been just a little politics mixed up with the business.

The Democratic congressional campaign committee is practically complete, and further announcement as to its organization is not likely to be made until it is definitely known whether Senator Gorman will accept the chairmanship of the committee, which is now being urged upon him by the party leaders.

The hearings in the Ohio ballot-box forgeries investigation, which were used by Ohio Republicans to get even with each other on old scores, have been closed, all witnesses discharged and the committee adjourned subject to the call of its chairman. The last hearing was highly sensational. Foraker called Grosvener a liar, and Wood stated that the forged document was prepared by Foraker, Hadden and himself. Wood has been detected in a good many lies, but there are lots of folks who believe he was pretty near the truth in this last statement.

How's this for paternal government? Bills have been introduced by Republicans in both Houses to prohibit any changes being made in the boundaries of any congressional district until after Congress shall have made the apportionment of Representatives on the returns of the census to be taken this year. If Congress, or a majority thereof, can make such a law there is no limit to what it may do.

Representative Grimes, of Georgia, left a Washington hotel because a negro was seated at the same table with him. Public opinion here says Mr. Grimes did right.

Representative Blount's bill authorizing the Postmaster General to erect post-office buildings in all towns where the gross receipts exceed \$3,000 a year is warmly approved by Mr. Wanamaker.

Senator Moody has introduced a bill providing for the erection of a post-office building in all towns of 4,000 population.

Senator Pierce has introduced a bill for an agricultural commission to investigate the cause for the present unsatisfactory condition of the agricultural interests.

The Postmaster General wants a postal telegraph system, embracing those cities having the free delivery system, to be established at once. He made a long argument in its favor before the House committee on Postoffices this week. He believes it would be a great convenience and that it would be self-sustaining.

Ex-Representative Symes, of Colorado, is here opposing Secretary Windom's silver bill. The House committee in charge of the bill has invited Mr. Windom to appear before it and submit his views.

COUNTY COURT PROCEEDINGS
