

ADVERTISEMENTS.

UNITED STATES LAND OFFICE, Burns, Oregon, April 25, 1890. HENRY GIVEN that in compliance with the act of Congress...

THE HERALD. GREATEST CIRCULATION OF ANY PAPER IN THIS COUNTY.

Local News. Mr. and Mrs. Stenger returned from Baker City, Monday last, accompanied by their daughters...

County Items. Stauffer, of Crane creek is at this week.

Cal Geer, has been confined two or three days this week.

Cal Geer, has been confined two or three days this week.

Cal Geer, has been confined two or three days this week.

Cal Geer, has been confined two or three days this week.

The infant babe of Mr. and Mrs. Crego, died last Monday night.

Justice cannot be expected from any man who is devoid enough of principle to do another, an injustice.

The man, who may some day have an ax to grind, shouldn't be backward in turning the stone for another.

Sam King says he will head the list with a subscription of a beef, for a barbecue in Burns the 4th of July.

The Long Creek Eagle gives Henry Blackman's majority in Harney county 161. A mistake; his majority is 192.

Frank Jordan will have, in a few days, a supply of the Walter A. Wood mowing machines and the Thomas rakes.

The issue of the Ochoco Review of June 14, began the publication of the sixth volume of that paper. Success to the Review.

Lunenburg and Fry have received their stock of boots and shoes, which for style and genuineness far surpasses any stock of like character ever brought to the town.

Mr. and Mrs. Stenger returned from Baker City, Monday last, accompanied by their daughters, Clara and Bessie, who have been in Baker City attending school.

We see quite a number of persons, residents of Harney, on our streets this week, and see no demonstrations on the part of Burnsites to molest or disturb them.

The items is now in the hands, and under the management of W. R. Graden, we wish him all the success that is possible for newspaper men to expect.

The subscribers to the fund for the fencing and improving of the Burns cemetery, have paid in this week nearly the whole of the amount subscribed. Burns is never backward in doing good.

We are glad to hear that Mrs. McGee will not suffer so much from the deprivations of the grasshoppers as was feared. They are leaving after de-voting about one-third of her crop. The part not destroyed we understand is looking splendidly and bids fair to make a very heavy yield.

The Red Front Saloon, Lee Caldwell proprietor, is a pleasant resort for every one, rich or poor, all are treated with that respect and politeness we owe to everyone. The best of liquors are behind the bar, and every effort is made by the genial proprietor to please all customers.

We learn from T. J. Morrison, at whose house Mr. Mark Embree is stopping, that the latter boy, was more dangerously ill last week than we reported, but he further stated that his condition was now favorable.

The rye harvest is in full blast. Most of this cereal grown in this county will be cut for hay, as the recent heavy frosts have prevented its growth to such an extent that only a comparatively small portion of it will do to save for threshing purposes.—Prineville News.

We are authorized to advertise that Burns will give a 4th of July celebration surpassing in grandeur and style, anything that has ever been attempted in the town. Our Band now numbers 18, the music itself will be quite a treat, the fire works will be "grand, gloomy and peculiar;" the ball given will be, as is said by the average college school girl "simply awful."

The town of Burns secured the county seat of Harney county at the late election by a majority of thirty-three votes, and great was the rejoicing over the result in that little burg. We congratulate our sister town on her success, so well earned, after a hard fought battle. The county seat is precisely where it should be, and the people were strong enough to put it there.—Prineville News.

Thank you "Brother News," but the majority should be eight, instead of thirty-three.

The bands boys are having their band wagon nicely painted. The B. B. B. row numbers 18 members; they make fine music. One of the features of our 4th of July celebration, so we are informed, will be the band wagon nicely decorated, the boys all uniformed, 16 head of nicely comparisoned horses hitched to the wagon, 8 black and 8 white, making 8 span a black and white horse to each span.

We notice, with pleasure, the rooster of the Bedrock Democrat.

Robt. Drinkwater says: "A long pull, a strong pull, and all pull together," but he is pulling the wrong way.

The public in general, when in Burns, are solicited to glance at the Hardware store of Cal Geer, in front they will see a awning, under the awning on the porch a display of the best pumps ever brought to this town, also, mowers, rakes, etc. Just above the awning you will please notice the sign of Hardware, Tinware and Cutlery; do not forget to walk in, you will find everything in the Hardware line that the country demands; and at prices which is not exorbitant.

Several parties in during the week buying lots. This does not look as if they were very much afraid of the final result of the contest question being unfavorable to Burns, or the parties like the town of Burns the better, county-seat or no county-seat.

We had a talk with Robt. Terrel on Tuesday about matters in general, politically he is satisfied, but would rather Burns had received a larger majority for county-seat, still he thinks there can not be any doubts to the result, if we get justice. He has treated himself to a new bookboard, one that for style, lightness, and durability, cannot be surpassed in Oregon.

There's a place in our town for enjoyment go, especially if you have any jokes to bestow, that place to be sure is Tex's Saloon; if you like fun, music or laughter you can't get there too soon; if its whisky you're after, it's the same he's got, of the very best brands, but it is cash on the spot. Now boys remember and don't you forget, that Tex's Saloon is the best, you bet.

In this week's issue notice the card of Helen & Zumwalt Contractors and Builders. These gentlemen, have been working at their trade for several weeks in Burns, and up to date, have given entire satisfaction. Those desiring to build will do well to consult them before entering into any agreement elsewhere. Their place of business is the building joining the meat-market on the north.

Our blacksmiths are busy, the same can be said of our carpenters; our merchants are busy, receiving and selling goods; the lawyers dispensing law; the doctor giving prescriptions, and the druggist filling them; the saloon keepers mixing drinks; the livermen grooming horses; the P. O. Mistress handling out our mail; the hardware house selling mowers; the butcher cutting meat; Lunenburg & Fry making and selling boots and shoes; the Land Office dealing out the public domain; the barbers shaving the people, "and so are the lawyers;" the saddle and harness maker busy selling harness and saddles; the milliners they are busy in their line: the dress maker busy as a bee; the tinner busy mending the making pans; and the editors, well, they are busy too, if not busy with their own business they make it their business to stick their nose into somebody else's business.

On the 8th of this month, Mr. E. Fisher, a resident of the Island, L. R. Mehaffey and C. Lackman, were stretching wire around Mr. F.'s ranch, the latter was in the wagon driving the team which became frightened at the rattling of the wire in the wagon and ran away, the tongue dropping from the ring in the neck-yoke, the end ran into the ground and threw the wagon over, throwing Mr. F. about ten feet in the air landing him about 15 feet in front of the wagon. He was carried to the house by Messrs. Mehaffey and Lackman, and found to be badly bruised, but not dangerously disabled.

"Good-bye boys, come up to Harney the county-seat, sometime and see us." Our devil hounded after them as they started off, "come back gentlemen when Burns gets the county-seat, and be sure to bring your fam-lee-ees;" at the same time he had his paps spectacles on his nose, with his thumbs inserted in that part of his torn vest "what the arms goes through," with the three first fingers of each hand resting on the palm and the little finger of the right pointing in a northeasterly southwesterly direction, and the little finger of the left hand pointing straight towards the north star, with the left eye closed, and the right one looking as innocent as a Harneyite when he wants some one to "set em up."

"Professor" Bowen gave Dick a magpie for which he begs us to thank the "Professor." It is very smart, we don't mean to say the "Professor" is smart, or that Dick is very sensible, or that it is smart to give him a magpie, but we mean the magpie itself.

We understand that some of our citizens, who have been regular subscribers to the Harney Press, refused to take it from the office, because the editor is, and has been favoring Harney; we think this is entirely wrong. The Harney Press is published in that town and it is expected it will champion its cause consequently being in the same business we know the situation and cannot approve of such a course, while it is mainly for a newspaper to favor an honorable cause, we hold it is not always manly to drop the editor simply because we cannot agree on some local matter. A question always has two sides.

State of Oregon, vs. Geo. S. Sizemore. June 16: Examination of the above entitled cause, defendant held to await the action of the grand jury, in the sum of \$300. Undertaking filed June 14th, 1890.

J. C. PARKER, J. P.

Notice. Bill Woods offers to run his horse, "Jim Mac," on the race-track at Burns, Harney county, Oregon, on the 4th day of July, 1890, five hundred yards, for \$500, against any horse in Harney or Grant county.

Any one accepting the challenge, address, THE HERALD, Burns Or., naming their horse.

Farm for Sale. The farm belonging to Mrs. S. Haskell, one mile east of Burns, 160 acres. This is a very desirable ranch, having on it a good house and barn, and excellent well of water; one of the best gardens in the county, besides the whole 160 acres is splendid meadow land. Parties desiring to purchase, call on Mrs. Haskell for terms and purchase price.

Jim Bryant. This celebrated Norman Stallion, owned by C. H. Dewitt, will stand this season at the stable of A. J. Wilson, Burns. Terms for the season, \$8.00.

This full blooded Norman Stallion, is from the breeding stables of the famous breeder, Dillon, of Illinois. Jim Bryant is a dapple gray, 17 hands high and when fat, weighs 1780. The fine showing of his colts in this valley, demonstrates the fact that he is the best breeder in the Harney country. This horse is registered in the State above mentioned, which proves him to be a full-blooded Norman horse.

Ice Cream, Lemonade and Orange Stand. A few of the ladies of Burns and vicinity, met at the M. E. church on the afternoon of June 9th, and resolved to have—on the 4th of July—an ice-cream, lemonade, and orange stand. The proceeds to go towards paying the ministers salary. The following committees were elected: Committee to obtain lemons, oranges and candies, Rev. McCarty and W. C. Byrd. Committee to solicit cake, eggs, milk, etc., Misses Maud Janeson, Elsie Harkey, Callie McPheeters and Midge Byrd. Committee on ice-cream, Mesdames Harris, Orser, McGee, Harkey, Pratt, Byrd and Fry. Committee to obtain ice, Mesdames Orser and Harris. Committee on freezing ice-cream, Messrs. Pratt, Ors and T. A. Morrison. Committee to arrange the stand, Messrs T. D. Harris, John Pratt, Rev. McCarty and Orser.

Labor Leader. "Why do we wonder at crime?" We don't. Frances Willard tells about women in Chicago who make 12 shirts for 75 cents, and furnish their own thread; women who finish off a costly cloak for 4 cents; children who work 12 hours a day for one dollar a week. And what are you going to do about it? —Ex.

Town Building. In building towns in Harney, there has been many cracks and turns. Even shot up like a row her dolls. But soon come down in Burns.

Next in time come Arlington, But it died in the shell; And to avert, another one, seemed not to prosper well.

And next comes Stiles City; 'She thought to make a kick, Although she went a blind, She never took a trick.

And if our sister, Harney City, Still backs against her dose, All there is left for us to do, Is just to hold her close.

And one thing please remember, With all your cracks and turns, And if you kick, or other tricks, You can't unseat old Burns.

For we have a country around us, With great fields of hay and grain, And our only present drawback is, we need a little rain.

We have the U. S. Land Office, And our river is full of logs, Our mill will soon be running, And she will never say her dolls, S. H. A. CROAKER, Todd Town, June 9th, 1890.

General News. In this issue appears the ad. of Stoddart & Co. Pension and Claim Attorney, Washington D. C.

Governor Penoyer has received a check from the United States treasurer for \$17,205.21, that being the annual apportionment of five per cent on sales of United States land within the state.

From all appearance there is little prospect of work beginning on the Oregon Pacific for several months if at all this season. It is said that the company will make a fair profit on the road they have completed, and there is no inducement for them to push it further east.—Ochoco Review.

The late Mr. Randall told the Democrats to "keep together." Well, the Democrats and everybody else in his, now Uncle Dick Vaux's district have "got together" in great shape. A prohibition candidate was the only opponent of Mr. Vaux, and he ran just for fun, receiving 47 votes to Mr. Vaux's 6,754.

July 1 has been selected as the day for unveiling the statue of Indiana's favorite son, Thos. A. Hendricks. The occasion is as proper, will be entirely free from partisan demonstrations. Nevertheless the heart of many a Hoosier democrat will quicken its beats, as Senator Turpie tells of the virtues and good deeds of the greatest Democrat that has come out of the West since the days of Douglass.—Ex.

The forty miles of snow sheds that protected the track of the Central Pacific from blockade for so many winters will be rebuilt this summer. The rotary snow plows, mighty as they are, cannot cope with the snows of the Sierra Nevada, and the only way to keep the track free is to prevent the snow from falling on it. The magnitude of the snow shed system may be conceived from the fact that the rebuilding of the same will cost \$250,000.—Ex.

Ballot reform goes marching on, the latest advance being made in New Jersey. Both branches of the legislature of that state have passed the measure and Governor Absett has signed the bill. Besides the usual provision for secrecy of the ballot and keeping heelsers from the polls, the New Jersey law has this exceedingly healthy provision:

Any employer, agent superintendent or overseer of workman who shall by any sort of duress constraint or improper influence, or by any fraudulent or improper advice, contrivance or scheme, prevent or impede the free exercise of the franchise of any voter at any election, shall be liable to a fine of \$2,000 or five years imprisonment, or both.—Ex.

The Portland Oregonian says: The Snake river steamer, Annie Faxon, returned to Riparia a few days since, after achieving a first never before known in the era of steamboating on that very swift and treacherous waterway. The high water which for the past month and a half has prevailed, enabled the steamers to stem the rapids, which have heretofore been considered the head of navigation. After the rapids were safely passed the steamer reports sailing up an entirely new and magnificent river, with very few treacherous points for a distance of nearly one hundred miles. The river opened up a superb farming country, and on many of the choicest sites were handsome looking farms. The first steamer up the river was greeted by everybody, and the Faxon returned loaded with freight to her guards. The farmers in that country are forced to pay \$40 a ton to get their cereal and produce out of the country to the nearest railroad station, and the presence of the Faxon seemed a godsend to the residents.
