Fourth of July will soon be here and then—well we would like to have just one dollar for each headache on the morning of the 5th. Guess we would leave Burns, and take up our abode on 5th Avenue New York city.

We received last week—as a complimentary—a book of fiction, "Doctor Jack," by St. George Rathborne, and published by Street & Smith New York. "Doctor Jack" is very interesting and entertaining, and a book we can heartily recommend to lovers of that style of literature.

Don't forget when in town to visit the Red Front Saloon. The reading room is furnished with all the late papers; the billiard room is open, the tables ready inviting you to amusement, the best of liquors behind the bar, and the accommodating bar tender can mix your drinks in any shape or fashion you desire.

Many persons come into this office, speaking of and praising the fine loom of logs in the river at the present site of the new saw-mill—which John Sawyer will soon be sawing into lumber, several mechanics are working on the mill and in a few days "all will be well" and we will hear the "toot" of her engine.

J. J. Donahoo and family, formerly of Lakeview, but recently disposed of their property there, are looking at Burns and vicinity this week. Mr. D. seems to be pretty well pleased with Harney valley, and may buy property here and become a Burnside.

The Herald office was the recipient of some very fine strawberries, last week. They were grown on the ranch of Chas. Adams, and sent by Mrs. Martha Adams. Thanks to the donor. A party of twelve or fifteen met at Mrs. Chas. Adams, on Sunday, 15th inst., and were treated to strawberries and creams.

Hunt is expected in Baker City within a few days after he arrives at Walla Walla from New York. He comes here to look over the situation with a view to extending his road from Union through Powder river valley, via Sumpter, to the Harney country. Baker City can't have too many roads, in fact all roads should lead to our own particular Rome, and Hunt's will be as welcome as any other.—Blade.

Died—At the residence of T. J. Morrison, on the 23d inst., at 5 o'clock, a. m. of typhoid fever, Ora Dell Embree, aged 17, son of Mr. and Mrs. Mark Embree. This is the fourth child out of that worthy family that died of typhoid fever. The body was interred in the Burns cemetery, on the morning of the 24th.

We have before us a letter received by Cal Geer, agent for the Salem State Insurance Company, from the Ass't Secretary, authorizing the payment of full amount of insurance to J. C. Wooley for loss by fire, also a receipt signed by J. C. Wooley for the amount, and an expression of gratitude and thanks by him, for the prompt and liberal settlement of his loss, and recommending the company to any one, wishing to insure, as being entirely reliable.

If Dr. McPheeters leaves, what will Burns do for a physician?

George Stancilift was in town, this week.

Quite a number of strangers in town.

A general invitation is extended to all to come to Burns on the 4th of July. For fun, music and pretty women, Burns is the boss.

Several persons in town this week, residents of Harney, among whom we noticed J. C. Buckland and R. Claypool.

A German living in the Black Forests has invented a clock which is warranted to run, without winding, until the year 9999.

Dr. Horton moved into Burns, Saturday last, and is now ready to doctor your teeth in any shape you desire, either to pull what you have out, or put others in, or both.

A "black list" has been distributed among the saloon-keepers, of Pendleton, containing names of habitual drunkards to whom they are forbidden to sell liquor.

Dr. H. Doyd, and his brother Dr. J. W. Ashford, the latter a graduate of San Francisco Medical College, and New York. The former a graduate of New Orleans Medical College also, New York. These two physicians will locate in Burns in a few days.

Everybody come to Burns to celebrate the 4th, a good time you shall have, the citizens and business men of our town are determined to make it a success, and to every one, who will honor us with their presence.

From the number of mowers and rakes daily leaving the hardware store of Cal Geer, we are led to believe, that a great deal of hay will be put up in Harney valley this season.

Weather Bulletin No. 11. Of the Oregon Weather bureau, cooperating with U. S. Signal Service, Central Office Portland, Oregon.

For the week ending Saturday, June 14th, 1893.

The week has been cold and partly cloudy, with light sprinkles of rain on the 8th and 9th. The rainfall was light and did not much more than lay the dust.

Vegetation of all kinds would be benefited by good heavy rains and especially would the wheat crop be benefited. The weather, has, however, not been injurious to crops, the cool, cloudy weather being more beneficial than cloudless warm weather would be, but rain is what is needed for the growth and maturing of grains, vegetables, etc.

Haying is generally in progress and light yields are generally reported. The continued dry weather proved to be quite injurious to the hay crop in most sections.

The fall and early snow spring wheat are in good condition; they would be benefited by rain, but if no dry north winds prevail, the crop will average very well. The late sown spring grain continues to be in a poor condition, and less than one-half the average, from spring sown grain is expected. Barley, rye and oats are doing quite well. Corn has a slow growth owing to the cool weather. Hops are reported as progressing nicely. Vineyards are healthy and excellent prospects are shown by them.

Eastern Oregon crop reports are more hopeful than from the Willamette valley. Fruit, however in the Willamette valley is by no means a condition as could be desired, and southern Oregon promises to clip former years by her fruit yields. The strawberry crop is becoming exhausted and cherries are now plentiful in the market.

RIVERS. The rivers continue to fall slowly and reports do not indicate that there is much snow to be melted.

B. S. PATER, Observer, U. S. Signal Service.

Frequent rains have caused the water in the Galway Reservoir to be higher than ever before. Water has been flowing over the spillway since June 14th, and the hotel and barns near by are surrounded by water from three to four feet deep. The reservoir is believed to be strong enough to stand the strain. But should it give way there would be a fearful outflow, as it is eight miles in circumference.—Ex.

Exchanges state that hot an acre of wheat or barley will be raised in Sutter county California. The whole district has been flooded with water since last December, ruining the grain and fruit trees of all descriptions except pear trees.
