

The Farmers' Alliance is rapidly increasing in numbers. To hold old parties had better take warning and listen to the wishes of the farmer and laboring man.

Gov. PENNOYER, the house of representatives and the senate should be more circumspect. The "would be dictator," West Shore, is already offended on account of some of the actions of our legislators and worthy governor.

The members of the senate and legislature must feel like going in to utter darkness and closing the door, since the issue of that worthy journal of January 31st.

The taxpayers of Linn county threaten, if the wagon road bill pass, to bring suit against the State treasurer and secretary of State to restrain the issuing and paying of warrants for that purpose.

Linn does not want any such appropriations, and is not magnanimous enough to allow counties situated from one to two hundred miles from the railroad, good wagon roads over which to haul their supplies.

MANY YEARS practice have given C. A. SNOW & Co., solicitors of patents at Washington, D. C., unsurpassed success in obtaining patents for all classes of inventions. They make a specialty of rejected cases and have secured allowance of many patents that have been previously rejected. Their advertisement in another column, will be of interest to inventors, patentees, manufacturers and all who have to do with patents.

This Australian ballot law passed the lower house of our legislature and has also passed the senate with amendments made, through influence of Joe Simon.

It now goes back to the lower house with amendments, and it is thought it will be defeated. The Lotan-Thompson-Montgomery faction of the republican party, which is bitterly opposed to that wing of the party led by Joe Simon, and both factions really wishing the defeat of the bill. The former faction in the lower house, since the amendments will kill the bill, will blame it on Simon, and Simon will argue the amendments insisted upon by him only strengthened the bill, and the blame must rest with the Lotan faction.

Harney county may be a good field for a newspaper, but no place is any good to a newspaper unless its patrons keep their accounts running. Good wishes and a "thank you" will starve anything.—Hens.

BURNS gets along with less advertising, considering the amount of business done yearly, than any town of like character in the United States. We have three dry good stores in our town that do a business of seventy-five to one hundred thousand dollars each, yearly, and expect a three or five dollar monthly ad., to get all the puff free in their local papers, necessary to properly advertise their business.

We know our merchants are making money, and while we do not wish, or desire, our readers to presume that we are dictating to our business men, we wish to appeal to the kind and, we hope, unselfish feelings of the aforesaid business men of Burns, including mechanics, and ask them if they are doing their local papers justice, or themselves? You have nothing in your midst that will do more for you, or will build up your town and business more rapidly than your local papers.

Such being the case, don't think for a moment that any money paid your local papers in the way of advertising is lost; you will certainly be benefited.

Persons living at a distance will examine our local papers in case they wish to know the status of our town, and the advertising is the criterion by which foreigners measure our capacity.

If the ads. of your town amount to something, the reader will naturally infer we have a good town and may come and trade with us. If the contrary (which is undoubtedly the case at this time) be believed our town to be "N. G." and goes elsewhere.

Pay your papers well for their work and let them loan the town and business of the town for all its worth.

FROM THE CAPITOL.

HERALD'S WASHINGTON LETTER.

A Synopsis of a week's working at the White House.

From our regular Correspondent: WASHINGTON, D. C. Jan. 31, 1891.

Mr. Harrison dies hard, very hard. Senator Hoar and his radical colleagues recognize that their last defeat meant the final disposition of the Force bill, and they have accepted the result with the best grace possible, although it is far from satisfactory to them. Not so with Mr. Harrison. He is so wedded to the idea of Federal interference in Southern elections and its consequent benefit to him and his party that he refuses to believe the force bill dead, and has begun scheming for another attempt to rush it through the Senate. He is strongly seconded by Speaker Reed and the House republicans generally, but the idea has so far been very coldly received by the Senators whose recollection of the two square knock downs they have already received while battling for this unpopular and unjust bill makes them shy of again entering the ring against the intelligent public opinion of the country.

Still there is no telling what these republicans may do. It is certain that if they saw their way clear to pass the bill that they would take it up again. There desire is as strong for the passage of the bill as it ever was, but it is the dread of another defeat that makes them hesitate. Democratic Senators are fully aware that all danger of this bill will not be passed until the close of the session, and they will see to it that the republicans get no chance to catch them napping.

That the democrats are always ready to aid in the transaction of legitimate business was shown when Senator Gorman notified the republican steering committee that the democrats were prepared to agree to any order of business which did not include the cloture rule or force bill. The program as arranged provides for the consideration of the following bills, after the Appropriation bill is disposed of: eight Hoar bill, Copyright, Pure Food, and the job of the session, the bill to guarantee the payment of \$200,000,000 in bonds of the Nicaragua canal company. It is certainly a suspicious circumstance that this bill for the exclusive benefit of a corporation should have been given a place in the order of business when dozens of bills important to the country at large were left out. Some music ought to be heard when this bill gets before the Senate, and will be, unless I am very much mistaken.

The defeat of Senator Ingalls did not raise a cyclone of grief at the Capitol.

Unless the republicans attempt some of these tricks it is believed that all of the appropriation bills can be disposed of by the 4th of March, and an extra session avoided.

Chairman Dingley, of the House committee, now investigating the silver pool scandal, is charged with having intimidated, in a conversation with Mr. Payne, a member of the committee, that Senator Vest would never have been allowed to testify if he had known that he would "give away" Senator Cameron. This charge is not made by a democrat, but by a good republican Gen. H. V. Boynton. Mr. Dingley denies it, and Gen. Boynton says W. R. Stephens heard the conversation in question. Its a nice mess, a republican mess, all through, and before the committee finishes its labors it will be in need of being investigated.

The arguments in the Dehring Sea case were heard by the Supreme Court this week. They contained nothing new on either side, thanks to the enterprise of our newspapers in having told us two weeks ago what points each side would try to make.

The anti-silver men have opened their campaign against free coinage by bringing a lot of Eastern bankers here to tell the House coinage committee what a dangerous thing free coinage is. Another dodge of the antics, is to amend the free coinage bill so as to make it conform to the views of the President. Both schemes are meant to accomplish the same thing—delay, and that is how it will be beaten, if it is beaten. The committee will delay reporting it back to the House as long as possible, and after it is reported, Speaker Reed will delay its consideration if he can, and between all these delays the time will have become too short to pass the bill at this session, See? Great scheme isn't it? Not very original though.

Mr. Blaine isn't saying anything about the Force bill, but he has had a kind of an I told-you-go look ever since Mr. Harrison was knocked out at the same time his pet measure was.

County Court Proceedings: Bids, for building a bridge over Silvies river rejected, and further consideration for building said bridge continued.

Thomas J. Morrison appointed Stock Inspector. Reports of county officers ordered published. County road beginning at the S E corner of the W 1/2 of the S W 1/4 sec. 8 Tp. 25 S R 32 E thence north intersecting the Saddle Butte road at the N E corner of the W 1/2 of the S W 1/4 of sec. 5 Tp. 25 S R 32 E to be known as Dixie road. Road ordered viewed and surveyed. Sheriff bond in the sum of ten thousand dollars. Road district No. 2, made three road districts. Road district No. 3, divided into two. Road district No. 6 divided into two. Road district No. 5, divided into two. The claims of the different road Supervisors examined and allowed except districts 5 and 6. Supervisors appointed for the road districts of the county. Bond of Stock Inspector approved.

TRANSPLANTATION OF HEARTS.

New York, Feb. 1.—The New York Daily Continent, formerly the New York Star, publishes the following:

Rufugia Gutierrez, a resident of the City of Mexico, is here on a mission which will interest the entire medical world. He is at the Hotel America.

Senior Gutierrez makes some remarkable statements. Dr. Martinez of the City of Mexico, he states has for years made specialty of the circulation of the blood and in his researches claims to have experimented successfully in a most extraordinary manner. Senior Gutierrez has the reputation of being entirely trustworthy.

"You will perhaps hardly credit me," the doctor said to a reporter to-day, "but Dr. Martinez has taken the heart from one animal and placed it in an other, and vice versa. No disagreeable effects were noticeable, and the animals on recovering from the anesthetic were as well, apparently, as ever.

Martinez has experimented successfully with cats and dogs, and would soon take the heart from a cow and place it in the body of a bull.

Dr. Martinez is so enthusiastic that he has petitioned the Mexican government two criminals now under sentence of death. The offer is now under consideration, and a reply to his request is expected in a few weeks.

"If Dr. Martinez secures permission to use the two men he will show the medical world he can do all he claims. He will through a process which is yet a secret, transfer the hearts of the men, one to the other, and without the slightest injury to either. The American as well as the European medical world will be notified of the date of the experiment. The whole matter will be done with all the publicity possible, so that science and humanity may be benefited. A movement is now on foot to raise fund to enable him to carry out his experiments."

Beatty's Tour of the World. Ex-Mayor Daniel F. Beatty, of Beatty's celebrated Organs and Pianos, Washington, New Jersey, has returned home from an extended tour of the world. Read his advertisement in this paper and send for catalogue.

FOR SALE. The Red Front Livery Stable, situated in Burns, opposite the Burns hotel. Mr. Wilson offers this valuable Livery Stable for sale at low figures. He lives in the country, some distance from town, and cannot give the business the attention it requires, is his reason for selling. There is not a more valuable piece of property in Burns and any one desiring to invest in that kind of property, cannot better themselves in any town. Call immediately at this office or on Mr. Wilson, for you are likely to lose a bargain. The Stable is just what we recommend it to be.

FOR SALE. The free silver coinage bill has passed the Senate. It is thought by those who ought to know, that the bill will not pass the lower house, but its friends are nevertheless making every effort to have it pass.

Pfeffer, the new Alliance senator from Kansas, elected to succeed Ingalls is as sound as a dollar on the tariff question. When elected he made a speech in which he said: We are opposed to high tariff duties upon any article of common use. We believe that free trade is sometimes absolute protection. We believe in raising revenue only to defray expenses of the government. Next year an army of people will muster together under one banner to take possession of the government, and at the dawn of the 20th century the United States will be governed by the people that live in them. When that good time comes women will vote and men quit drinking.

Remedy of Ointment for Catarrh that cures it forever. As mercury will surely destroy the sense of smell and completely derange the whole system when entering through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure contains no mercury, and is taken internally, and it sets directly upon the blood mucous surface of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo Ohio, by F. J. Cheney & Co. Sold by druggists, price 75c per bottle.

Our Motto

"A dollar's worth for a dollar" is the motto of Hood's Sarsaparilla. This medicine is a highly concentrated extract of Sarsaparilla and other well-known vegetable remedies, and is pronounced by experts the most powerful and best preparation of the kind yet produced. It cures the various ailments and disorders resulting from impure blood or low state of the system.

The Best Medicine. "I have used all the bottles of Hood's Sarsaparilla for indigestion. It has helped me a great deal. I think it is the best medicine for indigestion and dyspepsia." Mrs. N. A. LATHROP, 133 North Fifth Street, Salt Lake City.

Hood's Sarsaparilla. Sold by druggists, 25c per box. Prepared by C. I. HOOD & Co., Apolonia, Lowell, Mass. 100 Doses One Dollar.
