

W.C. BYRD, Editor
THE trial of C. A. Kincaid, for the murder of Ex-Representative Paul-see, resulted in a verdict of "not guilty."

MANY years practice has given C. A. Snow & Co., solicitors of patents at Washington D. C., unsurpassed success in obtaining patents for all classes of inventions. They make a specialty of rejected cases, and have secured allowance of many patents that have been previously rejected.

HARNEY county is a healthful country. The altitude gives us pure air; we are way above the malarial regions, but do not think that we have no graveyard, or that it was necessary to murder somebody to give us a start, history has no record neither does tradition teach of any country or clime where "grim monster Death" does not come and claim victims.

That being one of the main incentives to immigration, and besides, we have lots of good land open for settlement, waiting the advent of enterprising, industrious and intelligent settlers, we say come on, and receive a hearty welcome. Remember when the much-bragged-of Willamette valley was first settled, the people lived on cracked wheat and such game as abounded in that country.

We sincerely hope and pray that our "county seat muddle" may be adjudicated at the coming term of Circuit Court. A county seat "racket" in any county engenders more infernal cunningness to the square inch, more envy, enmity, selfishness and hatred, than any religious or political fight on record.

Our exchanges, of this State, contain booms, descriptive of different counties and sections of the State. These puffs are gotten up by boards of trade and real estate agents, and the newspapers are paid to publish the same.

Every town should have a board of trade to look after its interest and the welfare of the country generally. If we desire immigration to our section, it should be properly advertised. A free horse should not be ridden to death; citizens of our town and county should not expect their local papers to boom the country, and send out papers containing publications advantageous to the business men and country, without some compensation.

Let us do the best we can for our town and county, and do not expect more of your newspapers, gratis, than any other branch of enterprise or industry in your midst. Burns and Harney county certainly should not have any "kick" coming for want of proper and efficient work on the part of the local papers. Do not say that you can get along nicely without the papers. You would soon sorely feel the need of them.

FROM THE CAPITOL.

HERALD'S WASHINGTON LETTER.

A Synopsis of a Week's Working at the White House.

(From our regular Correspondent) WASHINGTON, D. C. April 24, 1891.

The news of the snubbing given Mr. Harrison by the National Republican League convention at Cincinnati caused no surprise here, where every one who is at all posted on political matters knows the contempt felt for the present occupant of the White House by the leaders of the republican party, chief of whom is Mr. Blaine, who is now believed to have intentionally deceived Mr. Harrison when he promised him that he would not oppose his nomination.

A gentleman who is a warm personal friend of Mr. Harrison tells me that he is not the dupe of Mr. Blaine to the extent imagined by that gentleman and his friends, and that if after a careful observation of the political field, he does not think he can be re-elected he will refuse to allow his name to go before the next republican convention. That may be Mr. Harrison's intention, but it would be impossible for a man with his overwhelming egotism to believe that he could possibly be defeated.

The effect of the legislation of the billion dollar congress is beginning to be felt at the Treasury department, and already Secretary Foster has begun scheme as to how he can get the \$30,000,000 that must be paid on the 1st of July for pensions. He has decided to utilize the \$18,000,000 in silver half dollar now in the Treasury by depositing them in the National banks.

Another item, aside from the Congressional appropriations becoming payable after July 1, that is taxing Mr. Foster's ingenuity to provide for is the \$50,000,000 of 4 1/2 per cent bonds that will mature in September. Although it has for some weeks been given out that all of these bonds would be taken up at or before maturity, I have it on good authority that it is the present intention of Mr. Foster to allow those in the hands of the National banks to remain outstanding at a reduced rate of interest, if the banks will consent to it.

Nobody has ever had much confidence in the honesty of Secretary Tracy's alleged reform in the employment of the foreman and master mechanics of the navy yards of the country, and now that it has been endorsed by Senator Chandler there isn't an atom of confidence left in it.

If Jerry Simpson isn't careful somebody will charge him with being in the pay of the Washington agents lobby. He made a speech here this week in favor of the Government's paying the Union soldiers or their heirs the difference between the value of the greenbacks paid them during the war and of gold. He says it will only take \$3,000,000 to do it.

It has leaked out through the State department that the administration is extremely anxious to dispense with the services of Fred Douglass, minister to Hayti, because of the mess he has made of the negotiations for a coaling station on the island for the United States. It fears, however, to dismiss him now lest it may effect the negro vote in next years convention.

The remnants of the Sixth Massachusetts regiment, of which Lieut. Gov. Jones of New York was commander when it was attacked by the mob in the streets of Baltimore in April, 1861, visited Washington this week, and was royally entertained. They left for home this morning.

The Senate Finance committee has designated as a sub-committee to investigate the working of the McKinley tariff law, under the resolution adopted by the Senate at the last session. Senators Allison, Aldrich, Hitechock, Carlisle and Harris. The sub-committee begins work next week, and it is already apparent that an attempt is to be made to make republican campaign thunder, but the two wide-awake Messrs. Carlisle and Harris will see that their end is

Corp-Weather Bulletin No. 7

Of the Oregon Weather bureau, Central Office, Portland Oregon. For the week ending Saturday, April 25 1891.

(This bulletin was based on reports received from 147 correspondents.)

WESTERN OREGON WEATHER. Cool, cloudy weather with rain prevailed during the week. There were general light frosts, which did no damage, on the 19th and 20th, some hail fell in various sections on the 23d doing no damage.

Along the coast and Willamette valley from one to two and a half inches of rain fell. In southern Oregon less than an inch fell. The temperature ranged from one to two degrees a day, below the average for the week. There was sunshine at intervals, but far from the average amount.

CROPS.

The rain was very beneficial to crops on uplands. On the lower lands seeding is not all done and it will now be further delayed. Fall sown wheat and oats have fine growths, and in sections it is being pastured down. Spring grain that has been sown is doing finely. The fruit crop is thriving. All trees are generally in full bloom. Present indications point to a phenomenal fruit crop this year.

EASTERN OREGON WEATHER.

The weather has been more cloudy during the past week than for a long time and light rains were general. Over one half an inch fell throughout the section. The temperature has been slightly below the average, with occasional light frosts.

CROPS.

The rain which fell was needed, for the soil was becoming dry and late sown grain was not germinating. The rain gives renewed vigor to grain already up and greatly assists the rain that fell is worth a vast sum to the wheat fields. Prospects were never better for the wheat crop than they are at the close of the present week.

Grass on the range is growing and furnishing good feed. Stock are fattening. Shearing is in progress. Fleeces are large and wool of good quality. Fruit promises unusually well. In Wasco county there has been a largely increased acreage of water melons. Vegetables in gardens are growing rapidly.

As in western Oregon, the prospects were never better for bounteous crops throughout eastern Oregon. B. S. PAGE, Observer, U. S. Signal Service.

Horace Greely's Wisdom.

Horace Greely was a great success as an editor. He was an honest, earnest man. He had his faults but his virtues outlive them. Truth lives eternally; error dies. His code of principles in use in his management of the Tribune were as follows:

Always give a hearing to your opponents. Never attack a man and refuse to let him answer in the same column.

Be always as considerate of the weak and friendless as the powerful.

Waste no strength in advocating that which is intrinsically impossible.

Never compromise your own opinion on account of your subscribers or advertisers. If they don't like your ideas they can always go to another shop.

Let's reason together. Here's a firm, one of the largest of the country over, the world over; it has grown step by step, through the years to greatness—and it sells patent medicines!—ugh!

"That's enough!"—Wait a little!

This firm pays the newspapers good money (expensive work, this advertising) to tell the people that they have faith in what they sell, so much faith that if they don't benefit or cure they don't want your money.

Their guarantee is not indefinite or relative, but definite and absolute—if the medicine does not help, your money is "on call."

Suppose every sick and every feeble woman would try these medicines and found them worthless, who would be the looser, you or they?

The medicines are Dr. Pierce's "Golden Medical Discovery," for blood diseases, and his "Favorite Prescription for woman's peculiar ills. If they help towards health, they cost \$1.00 a bottle each! If they don't, they cost nothing!

Horse-Radish for Grip.

An eastern woman sends the following to a Chicago paper: "I feel as though it were my duty to inform the many sufferers from cold—the grip and pneumonia—of my little experience, which may prove valuable. I discovered members of our family contracting colds, which no doubt, is the forerunner of the grip and pneumonia, and while suffering from a severe attack I partook freely of grated horse-radish with my food, which acted like a charm, furnishing almost instant relief, caused a cessation of the constant hacking and cough caused by irritation of the glands, being almost entirely closed, and while I am particularly fond of this edible, it is, in my mind, invaluable as an article of food, containing self sustaining medical properties of great value. There is nothing that I have any knowledge of which seems to permeate the entire system so thoroughly as this simple article horse-radish; and this is no new theory, as I understand very many are using it; and that in England it is considered of great value. After partaking of this vegetable one can feel throughout the entire system a renewed energy, creating a thorough circulation of the blood, opening the pores throughout the entire system.

Deafness Can't be Cured

by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that we can not cure by taking Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.

DR. PIERCE'S Cream Baking Powder. Used in Millions of Homes—40 Years the Standard.

NEW HOME SEWING MACHINE. THE BEST ATTACHMENTS THE FINEST WOODWORK. FOR SALE BY NEW HOME SEWING MACHINE CO., 725 Market St., San Francisco, Cal. Pacific Department.

STRICTURE!

Permanently Cured without Cutting, Burning or Dilating. A perfectly painless treatment and a guaranteed cure in every case, no matter how long standing. This treatment for Stricture, of Dr. Boxwell's, is the greatest discovery known to Medicine. It dissolves and completely removes the Stricture without annoyance or pain to the patient.

DISEASES OF MEN!

Peculiar to their Sex, and not proper to name here, including all those delicate Infirmities and Weaknesses which they would shrink from disclosing to their family physician, permanently cured in less time than was ever known to Medicine before, by Dr. Boxwell's "New System of Treatment." It rejuvenates the genito-urinary organs and makes weak men strong.

When possible, it is always best to call for personal consultation and special examination. But those who cannot possibly call, should write, stating their case fully. Medicine sent by mail or express, sealed free from exposure, to all parts of Pacific coast. Address: W. A. BOXWELL, M. D., Consulting Physician, St. Paul Dispensary, Portland, Oregon.

BEATTY'S ORGANS. BEATTY'S PIANOS. BEATTY'S SEWING MACHINES.

The Druggists

In Lowell, Mass., agree in saying that they sell more of Hood's Sarsaparilla than all other blood purifiers. For instance: F. C. GOODRICH: I sell more of Hood's Sarsaparilla than all other blood purifiers.

A. W. DOWS & Co.: Hood's takes the lead of all other sarsaparillas. C. F. BLANCHARD: We sell more of Hood's Sarsaparilla than of any similar.

MASTON & SHAW: With us the sale of Hood's is 9 to 1 of any other kind. F. A. E. BAILEY & Co.: Hood's Sarsaparilla is one of the best medicines we have. Its sale increases every year. J. P. MOODY: We sell twice as much of Hood's Sarsaparilla as of anything similar.

C. A. SWAN: Hood's is the most popular sarsaparilla of the day. THIRTY OTHER DRUGGISTS speak similarly. This popularity at home, where Hood's Sarsaparilla and its proprietors have been known for many years, could not continue if the medicine did not possess merit. And these facts should certainly convince people in other sections of the country that Hood's Sarsaparilla is a good, reliable medicine.

Hood's Sarsaparilla Sold by druggists. It is six for \$5. Prepared only by C. I. HOOD & Co., Apothecaries, Lowell, Mass. 100 Doses One Dollar
