—Willamette valley is being flooded with Eastern Oregon horses and it is almost impossible to sell them, so says every one coming from there. The Fopiani horses that passed through here some time ago are meeting with a dull sale. When such horses as those were cannot be sold readily, there is not much use of trying to sell an ordinary band horse.—Ochoco Review.

—We publish, this week, the report of the Burns school for the spring term. This school took a long step to the front this spring, and it is hoped, will make rapid progress next fall. No pupils, we are informed, will "graduate" from next spring, nor will permits be given as prizes for attendance. Pupils "graduating" from the Harney school can then enter here and finish their education.

—P. F. Stenger, the recipient of the blow on the head from a beer bottle in the hands of James Kennedy, is rapidly recovering and expects to be out in a few days attending to business.

—Very little sickness in town or vicinity. This warm weather has a tendency to cause diarrhea, with which several persons have been attacked, but there is no serious cases reported.

—Dr. Ashford has bought the practice of Dr. Orr, in Grant county, and will, of course, leave us in a short time. We regret, very much, to part with Dr. A., knowing that he is a first class physician.

—Dr. H. Boyd announces that he will remain in Burns and practice his profession. We hope he will met with success, and save many valuable lives that, without his timely aid and assistance, would succumb to the ravages of disease.

—Harry comes to the front, this week, with another snake story. He says when a boy, he was plowing, and unearthed a large rattle snake, which, in his efforts to get revenge, bit the mold-board of his plow, and before he could unhitch the horses, the beam of the plow had swollen so much that it cracked open.

—Five families, just arrived, are stopping at Mrs. Haskells, on the opposite side of the river from Burns. They are looking for homes and think Harney Valley is the place for them to call a halt, and take advantage of Uncle Sams public domain before the advent of railroads. These families, we are informed, control some capital, and while we do not object to persons coming here without, still every one knows, that some money is requisite to the development of the country.

—If a premium were offered for liars by the county and we had the awarding of it, we would, without hesitancy, give it to one George Olcott, who gave the lie to the East Oregonian, that during a visit he made to Harney Valley he rode up to a house and asked for a drink of water and was informed by the head of the family—which he says consisted of ten children, each, severally, separately, individually and jointly we guess—that the supply for the day had not been brought and they hauled it a distance of thirty miles, and had lived there for thirty years and hauled water the thirty miles every day during that length of time. We venture to assert that chagrin had all to do with little George inducing him to tell that lie to the East Oregonian, he saw so many people in Harney doing so much better than he ever hoped to do, and so much better looking people and possessed of so much more common sense and intelligence than had fallen to his lot or perhaps the poor fellow has no little ones to call him "daddy" or it may be he is a single man and the girls of Harney gave him to understand he was a small "frv" or perhaps one of his ten-head family was a young lady of intelligence and George made a "break" that convinced the young lady that he was a cabbage-head and she very politely informed him that such was the case, and George thought to get even by having her published as a ten-head family, hauling water thirty miles for thirty years and the Oregonian had no better sense than to publish his lie.

During the term the school was improved by the purchase of the largest bell in Harney county, a globe, dictionary, charts, and other valuable aids to teaching. The promised attendance for the fall term is so large that additional room will be needed. If the Burns school is to placed in the foremost rank of educational institutions in East Oregon, the work should be begun now, and a larger and better equipped school house is a necessity.

F. I. ROBERTS, Principal

Poultney Bigelow, who was a schoolmate of the German Emperor, will contribute an article to the Midsummer (August) Number of The Century on the first three years of the Emperor's reign—the third anniversary of his ascent to the throne having taken place on the 15th day June. Mr. Bigelow believes that "since Frederick the Great no king of Prussia has understood his business like this emperor," and in this article he gives what he considers the secret of the power of William II. with his people, and incidentally contradicts many facts regarding his life.

This number of The Century will be especially rich in illustrated articles and complete stories, and the illustrations of Mr. Bigelow's paper will include a number of views of the palaces at Berlin and Potsdam, and engraved portraits of the Emperor and Empress will form a double frontispiece.
