

CLEANLINESS is next to godliness, but we should stick to soiled linen a long time before patronizing the Chinese leper who is allowed to conduct a laundry in New York City.

In Europe they are talking about the feasibility of making sailors out of women. The idea will never become popular with the women of America, because the first duty of a sailor is obedience.

MANY years practice has given C. A. Snow & Co., solicitors of patents at Washington D. C., unsurpassed success in obtaining patents for all classes of inventions. They make a specialty of rejected cases, and have secured allowance of many patents that have been previously rejected. Their advertisement in another column will be of interest to inventors, patentees, manufacturers and all who have to do with patents.

THE great fight now going on between labor and capital, should be of the most vital interest to every one, and especially is it of the most vital importance to those whom, unfortunately, were born under adverse circumstances. That there is grievous causes for strikes, resorted to by labor organizations, none need deny. The agricultural and laboring class of our government, we unhesitatingly declare have been without mercy tyrannized over by selfish unfeeling monopoly, we do not condemn labor organizations for protection, neither do we condemn the Farmer's Alliance movement, but commend both and believe good will result from such societies. Why should capital backed by the most selfish aristocracy dictate terms to the laborer or producer? The laborer and producer are the government, and the fat moneyed bloated aristocracy lives at the expense of this government, and then dares to sit in its easy chair and dictate to the very object that gives it existence? The idea is preposterous nevertheless none can deny that such is the fact. That labor organizations make mistakes also the farmers league, we admit, but in the main the intention is for the protection and advancement of the best interest of the government and its citizens. We do not argue that this great reformation in our republic, which is made necessary by the shyllocks of America, can be brought about more effectively by a third party movement than through the cleansing of the two old parties, because the new party is made of the same material of the old, and the shyllocks or rather their hirelings will ingratiate themselves into the new party to work for the interests of their masters.

The oppression of the moneyed autocrat is felt from one end of the government to the other, they do not complain of hard times, for they have an abundance of money and to spare, what the laborer and farmer wants is a fair distribution of the government currency, and the enactment of such laws by our congress as will protect the class, referred to, in their just rights, and prevent now and for all time to come, the greedy monopolist from accumulating millions at the expense of the producer and laborer. What we claim is equal rights before the law and no laws enacted giving power to one class to make millions at the expense of another class thereby making the latter class continually poorer, while the former are continually growing richer. The currency, in the hands of a few, is what makes hard times.

HERALD'S WASHINGTON LETTER.

WASHINGTON, D. C. July 31, 1891.

The Harrison crowd were badly stampeded by the publication in this correspondence last week of the fact that the Blainites had in the slang of the day "got onto" their scheme of making Mr. Blaine too ill, in the newspapers, to think of being a candidate next year, and denials have been the order of the day ever since, but the Blaine fellows are by no means satisfied with denials, because they in their possession a number of republican papers which printed Washington specials supposing them to be sent by "Lige" Halford's portege and therefore to be not only true but to be strictly in accordance with the sentiment of the administration, or rather its head, and they refuse to believe that it is a mere coincidence that these papers are all anti-Blaine sheets. They don't think the excuse that "Lige's" portege was out of town and that these anti-Blaine specials were sent by a substitute is a satisfactory one. The oddest part of this "comedy of errors" is that these super-servicable Harrison men have offended the man they were trying to help and they have been sharply lectured, by proxy, by Mr. Harrison, who, however much he may fear Blaine, doesn't approve of this method of disposing of him. The whole affair is furnishing no end of amusement for democrats.

It is now stated at the State Department that the arbitrators in the Behring Sea controversy will shortly be appointed, an agreement having been reached between the department and Sir Julian Pauncefote, the British Minister, and the papers sent to Mr. Harrison.

Talk's cheap, but when its backed up by a pledge of the hard cash of a financially responsible firm, or company, of world-wide reputation for fair and honorable dealing, it means business.

Now, there are scores of sarsaparillas and other blood-purifiers, all cracked up to be the best, purest, most peculiar and wonderful, but bear in mind (for your own sake) there's only one guaranteed blood-purified and remedy for torpid liver and all diseases that come from bad blood.

That one—standing solitary and alone—sold on trial, is Dr. Pierce's Golden Medical Discovery.

If it doesn't do good in skin, scalp and scrofulous diseases—and pulmonary consumption is only lung-scrofula—just let the makers know and get your money back.

Talk's cheap, but to back a poor medicine, or a common one, by selling it on trial, as "Golden Medical Discovery" is sold, would bankrupt the largest fortune.

Talk's cheap, but only "Discovery" is guaranteed.

UNIVERSITY OF OREGON Eugene.

Next session begins on Monday, the 21st day of September, 1891.

Tuition, free.

Four Courses: Classical, Scientific, Literary, and a short English Course, in which there is no Latin, Greek, French or German. The English is a pre-eminently a Business Course. For catalogues or other information, Address J. W. JOHNSON, President.

Malaria

Is believed to be caused by poisonous miasms arising from low, marshy land or from decaying vegetable matter, and which, breathed into the lungs, enter and poison the blood. If a healthy condition of the blood is maintained by taking Hood's Sarsaparilla, one is much less liable to malaria, and Hood's Sarsaparilla has cured many severe cases of this distressing affection.

A Wonderful Medicine.

"For malaria I think Hood's Sarsaparilla has no equal. It has kept my children well right through the summer, and we live in one of the worst places for malaria in Marysville. I take Hood's Sarsaparilla for that all gone feeling, with great benefit." Mrs. B. F. DAVIS, Marysville, Cal.

Break-Bone Fever.

"My daughter Pearl was taken with dengue (or break-bone) fever 2 years ago, and my friends thought I would lose her. I had almost given up hope until she began to take Hood's Sarsaparilla. She took four bottles in four months, and gained 15 pounds. I thank Hood's Sarsaparilla for giving her back to me restored to health and strength." JULIA A. KING, Sherman, Texas.

Hood's Sarsaparilla

Sold by druggists. \$1; six for \$5. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar
