D. —Bill Woods of the Red Front Livery Stable, is preparing to take in the lot in the rear of the barn so as to have more room. Bill has just lately taken charge of the Red Front and with his "git up" and energy things are beginning to look lively around there already. —Yesterday afternoon we took occasion to visit the ranch of Jno. Martin, two miles north of Burns on the river. We didn't find any one at home except the parrot and cat; we could see the wheat field from the house, so we knew the direction of that, and in the absence of a melon patch, potatoes would do—the parrot told us where we could find the potatoes—parrots are just like women, you know, have no secrets. John's potatoes are fine, and he has lots of them; his wheat is in the shock and we certainly think a larger yield or better quality of grain did not grow in the state. The heads are large, the grain plump and the shocks stand very close together. The garden is looking well, and we found many flowers of the Sizemore variety but haven't the space to go into details and describe the beauty, size and other important facts of the Sizemore favorite. We noticed in passing along, the ranches of John Hipsman, George and Thos. Mausman, and N. Brown, all of which have grain fields, where only a few years since the sage brush grew, and a great many argued, at that time, that nothing else could be grown on the land. We saw apple trees at the Hipsman ranch two or three years old growing nicely, and peach trees on John Martin's ranch.

Bogus Patent Medicines.

The eastern papers are agitating the question of druggist selling bogus patent medicines because of the greater profits; imposing upon credulous customers a spurious article, which is likely to injure the patient, and at the same time the counterfeit may do irreparable damage to the genuine article. No sooner does a manufacturer establish a well-deserving reputation for a medicine, on account of its excellence and virtue, than some cheap, nasty compound, put up in a similar package, bearing a similar label, is put on the market and recommended by some druggist, and on account of its cheapness the genuine article is crowded to the wall. Newspapers should be cautious in advertising patent medicines, and accept no contracts until satisfied of the merits of the medicine, then purchasers would have a safe criterion by which to be governed and buy nothing but what they see advertised in their home papers.

Anderson desires all parties owing him hotel bills to settle the same immediately and save cost. —Don't fret about the flies go to Geers and get the latest improved fly trap, that has a capacity of getting away with a million a minute. —The Saloon of Lewis & Richardson is being refitted with stylish bar fixtures, and a billiard table. Call and see them. —We gather from the Prineville papers the news of a stage robbery on The Dailes-Prineville route, which occurred on Wednesday the 19th inst., near Sheare's bridge. No passengers were aboard, the driver found himself confronted by a lone highwayman and ordered to throw out the mail sacks, which order the driver complied with. The robber was armed with a Winchester rifle. The loss is not yet known.

Board of Trade. All persons feeling an interest in the growth and welfare of the county, are invited to attend at the church, in Burns, August 29, 1891, and if possible, organize a Board of Trade, and devise ways and means of properly advertising the resources and opportunities of the county. Every other county in the state is attracting the attention of home seekers from abroad, and none more advantageously situated than Harney county. We have more arable lands awaiting settlement than any other county in Eastern Oregon; but who knows it outside of the comparative few now located here? It looks like selfishness on the part of those here, to remain silent and inactive longer. Let the world know of the wonderful range and farm lands of this county, 10600 square miles of territory monopolized by 2500 men women and children all told. Let us organize and advertise.
