Arrives Mondays, Wednesdays, Fridays, 6 p. m.
Leaves Tuesdays, Tuesdays & Saturdays 6 a. m.

NEEDED LEGISLATION.
Baking Powder Bill Passed by the Minnesota Senate.

The recent newspaper discussion of the dangerous qualities of ammonia comes from the alarming increase of its use in baking powders. People who absorb it in small quantities from day to day suffer from slow ammonia poisoning. Taken internally in sufficient quantities it eats away the coatings of the stomach and intestines and causes death. Slow ammonia poisoning produces various forms of stomach trouble.

Not one woman in ten thousand would use an ammonia baking powder if she knew it. Such powders not only undermine the health, but Ammonia imparts a fallow and blotched complexion.

Following is the bill recently passed by the Minnesota senate. It's the danger signal which the law throws out for the protection of the people:

A Bill for an Act to Regulate the Traffic in Baking Powder

Section 1.—Any person who shall knowingly sell or procure the sale, or offer for sale of any package or can of Baking Powder, containing any Ammonia in it, not distinctly, legibly and durably branded, stamped or marked in a conspicuous place with the words in the English language "This Baking Powder contains Ammonia" in letters of great pica, or any letters equivalent thereto in length, shall be guilty of a misdemeanor, and punished by a fine not less than \$20 nor more than \$50; shall be confined in the County Jail not less than ten nor more than twenty days or by both fine and imprisonment at the discretion of the court.

Section 2.—The sale or offer for sale of the substance mentioned in the foregoing section in packages not stamped, marked, branded or labelled as therein required, shall be prima-facie evidence of knowledge of the character of said substance, on the part of the person so selling or offering for sale and his employer.

Section 3.—This Act shall be in force on and after its passage.

NOTE.—An incident occurred in the house when the senate bill came up for passage, in reference to an amendment proposed by Mr. Diment. This was opposed by several members. Mr. Feg said that if the bill as it came from the senate was all right then the amendment was all wrong. The amendment compelling the printing of the word "Ammonia" on the label only affected the Royal Baking Powder, and no wonder they felt the senate bill was a blow at them.

"What's a Malla—Wha For?"

Hong Fat, the boss of the borax marsh came in town the other day to get the wea her clerk to stop the rain. The marsh is under water. Hong says: "Melican man heap foole. Alle time shoot giant powder in b'loon, makee more lain. Chinaman o makee borax—no makee no licee, no glub. What's a malla—wha for?"—Candelaria Belt.

The detonation of a new heavy caliber gun at Ingolstadt recently smashed all the windows of a railway train that was passing the artillery range at the time. Fortunately none of the passengers were injured.

A Perfect Baking Powder

The constantly growing demand for Dr. Price's Cream Baking Powder, the standard cream tartar powder for forty years, is due to two causes.

FIRST:—The extreme care exercised by the manufacturers to make it perfectly pure, uniform in quality, and of highest raising power.

SECOND:—The recent investigations exposing the fact that certain other brands of baking powder contain ammonia and still others that were found to contain alum. These unscrupulous manufacturers are being found out, and the consumers are giving them a wide birth.

Nothing is left to chance in the manufacture of Dr. Price's Cream Baking Powder. Chemists are employed to test every ingredient as to purity and strength. Hence; its marvelous purity and uniformity. Each can is like every other. It never dissapoints. BEST is ALWAYS the CHEAPEST.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

GREAT REDUCTION IN PRICES!
