Squiggins giving Evidence in the U. S. C.

LAWYER.—"Have you any distinct recollection of your birth?"

SQUIGGINS.—"I have a very distinct remembrance of that sad occurrence."

"Please inform the Referee the circumstances attending that very important event of your coming into existence, and especially that part of it that strikes your mind, at this age of your life, you being 24 years old, so forcibly as to lead you to exclaim it was an occasion of sadness."

SQUIGGINS, (to Referee.)—"Please read that over; I failed to properly follow the gentleman."

Referee read the question.

"I remember crying very bitterly, in fact my grief was such that my poor mother, who seemed to be very much interested in my well fare, feared fatal results."

"Now will you be so kind as to tell us why you cried so bitterly?"

"Yes, sir; the thought struck me that if I lived to be a man I might be in some way connected with a county seat contest, and as a witness submit to an examination by 'block-head' lawyers, and the idea almost broke my heart."

"Then you have a heart?"

"Yes sir"

"I am glad to hear it Referee, will you please take a note of that?"

A lawyer, like a woman, will if possible have the last word.

Suffering from the Grip.

LOCKPORT, N. Y., Jan. 23—Stories of the terrible suffering and pitiable condition of the lumberman in the lumber camp in the Georgian bay and back woods districts from the ravages of the grip have been received here, and are vouched for by the lumber and wood pulp agents who have recently been up there. L. M. Proctor, of Ogdensburg, N. Y., have just arrived from Georgian bay. He says that in a lumbering camp of the Emeroy Lumber Company of Chicago nineteen men out of 150 had died of the grip, and half of the remainder were sick, the balance are taking care of them. Other camps are similarly affected. The sufferings of the men are indescribable. Some of them are reported to have gone crazy, it taking two or three men to control them. The accommodations are meagre, and it is no fit place for sick men, the lodging houses being log cabins or shanties. Medical aid, except of the crudest

kind, is hard to secure, and the men simply suffer and get well or die. Some camps are completely deserted and many of the men taken sick are left without care. Agents from wood-pulp syndicates have returned and report the back Canada woods district in a similar condition. The lumberman are scared at the scourge as they call it, and flee for the large towns or cities where they can secure medical aid. In this way the lumber interests are suffering greatly. Many camps are totally deserted with the exceptions of the sick and a few noble fellows who are staying to look after their comrades. The deaths have been numerous. The burials take place in the woods under the snow, where many a man whose family knows not where he is, will lie sleeping forever.

The Ideal Baking Powder

is

Dr. Price's Cream Baking Powder.

For more than fifty years Cream of Tartar and Bicarbonate of Soda have been used for leavening purposes with sufficient flour added to preserve the strength of the powder unimpaired, and this with the addition of whites of eggs comprises this pure and wholesome leavening agent, that has been the standard for 40 years. In its use pure, wholesome and delicious food is always assured. Makes cake and biscuit that retain their moisture, and while they are flaky and extremely light they are fine grained, not coarse and full of holes as made with ammonia baking powders, latter dries up quickly. Alum powders leave a bitter taste in the bread or cake. Dr. Price's Cream Baking Powder once used, always used.
