The Long Creek school house, so says the Eagle, came very near being destroyed by fire a few days since; fortunately the fire was discovered by Prof Bonham in time to prevent a conflagration. The loss of their school building would be a severe blow to Long Creek. The building is an excellent one and an honor to any town of that size; showing enterprise in the right direction by the citizens, relieving the road of progression that leads to success, is through education, and putting the theory into practice, that such a facility should not be neglected, erected a very handsome and convenient structure in which to educate their children.

Peter Stenger returned home the latter part of last week. He reports horses rather dull sale in the east. Father Bowen, who also recently returned from the east where he had been with a carload of horses; he disposed of his horses out from what we learned in conversation with him, not at fancy prices. Still there is no doubt but that eastern Oregon horses are growing into favor in the eastern market. One fact universally admitted by eastern horse buyers in reference to our horses is that they have the best of hoofs and excellent bone; this acknowledgment coupled with other good qualities our horses possess, that is, good muscle, size, nostril and lungs, makes him a desirable piece of property.
