

THE SARATOGA MIRACLE

FURTHER INVESTIGATED BY AN EXPRESS REPORTER.

The Facts Already Stated Fully Confirmed—Interviews With Leading Physicians Who Treated Quant—The Most Marvellous Case in the History of Medical Science.

CONTINUED FROM FIRST PAGE.

"In this case, Mr. Marshall, who is a prominent member of the Royal Templars of Temperance, had after four years of constant treatment by the most eminent Canadian physicians been pronounced incurable, and was paid the \$1,000 total disability claim allowed by the order in such cases. Some months after Mr. Marshall began a course of treatment with Dr. Williams' Pink Pills, and after taking some 15 boxes was restored to health.

"I thought I would try them, and my wife sent for two boxes of the pills and I took them according to the directions on the wrapper on each box. For the first few days the cold baths were pretty severe, as I was so very weak, but I continued to follow instructions as to taking the pills and the treatment, and even before I had used up the two boxes of pills, I began to feel beneficial results from them. My pains were not so bad; I felt warmer; my head felt better; my food began to relish and agree with me; I could straighten up; the feeling began to come back into my limbs; I began to be able to get about on crutches; my eye came back as good as ever, and now, after the use of eight boxes of the pills—at a cost of only \$4.00—see!—I can walk with the help of a cane only, walk all about the house and yard, can saw wood, and on pleasant days I walk down town. My stomach trouble is gone; I have gained 10 pounds; I feel like a new man, and when the spring opens I expect to be able to renew my organ and piano agency. I cannot speak in too high terms of Dr. Williams' Pink Pills for Pale People, as I know they saved my life after all the doctors had given me up as incurable."

Such is the wonderful story which the Express reporter has succeeded in securing verification of in all its details, from the hospital records where Mr. Quant was treated and from the doctors who had the case in hand and who pronounced him incurable. Let it be remembered that all this hospital treatment was two and three years ago, while his cure, by the use of Dr. Williams' Pink Pills for Pale People, has been effected since last September, 1891. So it is beyond a doubt evident that his recovery is wholly due to the use of these famous pills which have been found to have made such remarkable cures in this and other cases.

Mr. Quant placed in the hands of the reporter his card of admission

ADULTS REDUCED FROM 15 TO 10 CENTS PER MONTH BY TAKING THIS REMEDY... Koenig Med. Co., Chicago, Ill.

to Roosevelt hospital, which is here reproduced in further confirmation of his statements:—

ROOSEVELT HOSPITAL, OUT-PATIENT, No. 14037, Admitted Sept. 16, 89, Chas. A. Quant, Age 34, Discharge, Civil Condition, Occupation, Residence, 17 Park St., Boston, Mass., Mondays, Wednesdays and Fridays.

To verify Mr. Quant's statement our reporter a few days ago (March 31st, 1892), called on Dr. Allen Starr at his office, No. 22 West Twenty-eighth St., New York city. Dr. Starr is house physician of the Roosevelt hospital, situated corner of Ninth avenue and Fifty-ninth street. In reply to inquiry he said he remembered the case of Mr. Quant very well and treated him some, but that he was chiefly treated and under the more especial care of Dr. Ware. He said he regarded this case as he did all cases of locomotor ataxia as incurable. In order that our reporter might get a copy of the history of the case of Mr. Quant from the hospital record he very courteously gave him a letter of which the following is a copy:—

Dr. M. A. Starr, 22 West Forty-eighth street, office hours 9 to 12 a. m., New York, March 31st, 1892.—Dear Mr. Vought: If you have any record of a locomotor ataxia by the name of Quant, who says he came to the clinic 3 or 4 years ago, No. 14,037, of the O. D. Dept., Roosevelt, sent to me from Ware, will you let the bearer know. If you have no record send him to Roosevelt Hosp.

Yours, STARR. By means of this letter access to the records was permitted and a transcript of the history of Mr. Quant's case made from them as follows:—

"No. 14,037. Admitted September 16th, 1889, Charles A. Quant, aged 34 years. Born U. S. Married. Hoboken."

"History of the case:—Dyspepsia for past four or five years. About 14 months partial loss of power and numbness in lower extremities. Girdling sensation about abdomen. [November 29th, 1889, not improved, external strabismus of left eye and dilatation of the left eye.] Some difficulty in passing water at times; no headache but some dizziness; alternate diarrhoea and constipation; partial ptosis past two weeks in left eye.
