A NEW YORK MIRACLE

A REMARKABLE AFFIDAVIT
MADE BY A WELL-KNOWN
BUSINESS MAN.

Afflicted with Locomotor Ataxia for
Fifteen Years—Did not Walk a
Step for Five Years—Was Giv-

cians of New York and
Discharged from the
Manhattan Hos-
pital as Incur-
able.

(From the New York Tribune.)

For some time there has been an increasing number of "stories" published in the newspapers of New York City, telling of marvelous cures of various diseases that have been made by different medicines and treatments. It has long been the intention of the Tribune to investigate one of the most interesting cases that could be found and give the truth to the world as a matter of news. Happening on the case of Geo. L'Hommedieu, the other day an investigation was made with the following very happy result:

When the reporter called on Mr. L'Hommedieu at the residence of his cousin, Mr. Edward Houghtaling, 271 W. 134th St., he said: "I am 51 years of age and was born in Hudson, N. Y. I served my time in the army, being corporal of Company A, 21st N. J. Volunteers. It has been about fifteen years since I noticed the first symptoms of my disease. I consulted Dr. Allen of Yorkville, and also Dr. Pratt, since deceased. Dr. Pratt exhausted his powers in my behalf and finally told me that he could do nothing more for me."

"Finally I was advised by Dr. Gill to go to the well-known scientist, Dr. Hamilton. He gave me a most thorough examination and did me no good. I felt I was growing weaker every day, and went to the Manhattan Hospital, at 41st St. and Park Ave., and was under treatment by Dr. Seguin. He treated me for about three months, and then, told me that I had locomotor ataxia and was beyond the aid of medical science. I was now a complete physical wreck; all power, feeling and color had left my legs, and it was impossible for me to feel the most severe pinch or even the thrust of a needle.

"If my skin was scratched there would be no flow of blood whatever, and it would take it fully six weeks to heal up. In the right I would have to feel around to find my legs. My pains were excruciating and at times almost unbearable. I would take large doses of morphine to deaden the pains. About five years ago Dr. Lewis A. Sayre of 285 5th Ave., made a trial of the French method of stretching the spine. Although I received no benefit from this treatment I shall always feel grateful to Dr. Sayre for his great interest and kindness.

"So severe had my case become by this time that I could not walk without assistance, and was almost ready to give up life.

"I began the use of Pink Pills for Pale People in September last. I took them rather irregularly at first with the cold water treatment. In a very short time I was convinced that I was getting better and I began the use of the pills earnestly, taking about one box every five days.

"The first sign of improvement was in November 1892, when I had a rush of blood to the head and feet causing a stinging and prickling sensation. February 22, 1893 was the first time in five years I had ever seen any sign of blood in my feet. From this time on I began to improve. My strength and appetite have gradually returned; I now have perfect control of my bowels, and the pains have gradually left me. I can sit and write for the hour and walk up stairs by balancing myself with my hands. Without doubt I am a new man from the ground up, and I have every reason to believe that I will be hale and hearty in less than 6 months. I have taken about 12 boxes of pills."

H. E. MELVILLE,
Commissioner of Deeds,
New York City.

The reporter next called on Mr. Robert W. Smith, a member of the firm of March & Smith, who said: "I have known Mr. Geo. L'Hommedieu for twenty years. He became connected with our firm as secretary in 1879, and attended strictly to his office duties until 1882, when he was stricken down with his trouble. As the disease advanced he was obliged to succumb and reluctantly gave up his office work. I know that he tried various physicians and their treatments without the least success, and, as he states, he was finally discharged from the Manhattan Hospital and told that he was in the last stages of locomotor ataxia and was beyond the hope of human aid. About six months ago, or so, he was advised to try Dr. Williams' Pink Pills for Pale People, with the cold water treatment. The last time I saw Mr. L'Hommedieu he had gained the use of his limbs to such an extent that he could walk up stairs with the help of his wife, and is now doing much important work for us at his home.

An analysis of Dr. Williams' Pink Pills show that they contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effect of la grippe, palpitation of the heart, pale and sallow complexions, and all forms of weakness either in male or female. Pink Pills are sold by all

The End of The World.

NEW HAVEN, Conn., July 17.—Lieutenant Totten regards the present financial uneasiness as another sign of the coming of the end of the world. He declares it is inconceivable to him how amid all this no one assigns the true reason for the disturbances, and adds: "We are nearing the sound of the 11th stroke of the midnight hour. Its nature is apparently financial, but in reality the confusion of affairs enters into every order of human policy. The human race has sown the wind, and is now about to reap the whirlwind. Things will not get better, but rather worse. I would that every man and woman, at least of my own race—Israel—

would reread the parable of the wise and foolish virgins, and that right carefully in this connection. We are approaching the crisis which must precede the millennium"—Telegram.

Answer The Darling.

A child whose questions are not answered by its parents will either turn to others who are willing to gratify its desire for knowledge, but who, perhaps, are unable to distinguish between what is good for a child to know and what is not, or else it will lose its fine natural susceptibility and learn to look upon life in a dull, spiritless way without interest or curiosity. Worse, however, than not answering a child's questions is to ridicule them. Nothing wounds a child so deeply as finding its inexperience abused and its earnestly meant questions made the subject of mockery.—Sunday Welcome
