OUR ROADS.

HARNEY county road supervisors deserve a creditable notice given them for good work did the last year on our county roads.

Good roads are actually indis pensable to happiness. It also shows enterprise and is an index to character and intelligence of the inhabitants.

A thrifty industry people have good roads, if possible, over which to travel and the absence of good thoroughfares, when it is possible to have them, shows a lack of enterprize and a lazy do-less community.

We say it is an index to character and intelligence, because no community of industry and good sense wants to travel over inferior roads, it jars the nerves of a sensible go-ahead man to ride over roads neglected and in a state of starva tion for repairs. Such roads look as if they were ashamed of their improvident condition and the condition of the roads reflects the character of the inhabitants.

Let an intelligent stranger pass over your roads and he can tell without further inquiry, the the ft of the people. If we desire industrious, enterprising, monied immigrants to stop with us and assist in developing this great Valley of ours we can offer no greater inducement than good roads. If our county is worthy of good people good roads will cause such to stop with us.

WHAT is Harney county democracy going to do in the coming struggle for supremacy?

THE decision at Washington, making a would-be-purchaser of "green goods" liable under the law, promises to result sensationally. Inquiry at the office of Inspector J. H. Johnson developed the fact that 1800 names, in possession of the officer, included a great num ber of prominent men. Leading physicians, lawyers, prominent professional and business men all over the United States, and particularly Illinois, Missouri, Arkansas and Wyoming, are known to be included It is also stated, letters applying for hogus money, written by at least one ex congressman, a candidate

MR. CARNEGIE, being apprised of the provision of the Wilson tariff bill, is not alarmed. Others have been kicking about it, and we call attention to the followin fact: The ironmasters of the United Staes are allowed by the present tariff \$6 72 per ton on their pig iron to compensate them for the difference be tween American and European wages, and they have been paying to their laborers only sufficient to, amount to \$2 46 per top. If a farmer seeking rest should leave an agent sufficient money to pay all needed laborers \$6.72 per week and that agent should pay the laborers | only \$2.46 per week and pocket-the balance, he would be considered a mean, greedy, unfaithful, laborcheating scoundrel.-Telegram.

IF the democratic party, of this county thinks it has an easy victory and a walk over at the coming county election it is terribly fooled

Undoubtedly the republicans will endeavor to put the best representa tive men they have in the field and the people's party are going to run a full ticket and of course with an . eve single to success will do the sime, and if democracy expects to win it must be by discarding selfish desires and working for the success! of the party.
