

WEDNESDAY JANUARY 24, 1894.

NEWS IN GENERAL FROM OUR EXCHANGES.

It has been definitely decided that the official ceremonial opening of the California Midwinter International Exposition shall take place on Saturday, Jan. 27. This decision has been reached after a careful consideration of all the circumstances and there is full assurance on the part of those who are in charge of the preparations that everything will be in readiness at that time.

The building are beginning to attract from visitors the praise they justly merit. Their rapid growth was but one subject of wonder in the progress of this great enterprise. The arrangement of the vast number of exhibits with which their interiors are to be embellished is, of course, another wonderful operation but meanwhile the development of the ideas of the architects and the development at the same time of the general scheme of color which is being worked out in all the buildings comprises still another field for wonder and admiration.

The official opening ceremonies will take place on the grand stand which is now being erected for that purpose, and for utilization afterward in connection with athletic sports on the Recreation Grounds. This stand will accommodate 7,000 people and the populace can be accommodated on the greensward in front of it to the number of 100,000.

At a White Heat.

JACKSONVILLE, Fla., January 12—City licenses were issued to-day for the Corbett Mitchell contest on January 25th.

The Duval Club officers laugh at Governor Mitchell's threats and say the contest will certainly come off on the 25th.

Local military officers say their men would probably refuse to turn out, and that no dependence could be placed on them, so if the State troops are called out companies from out this county must be called.

The situation is at a white heat. All parties are in a ferment over the daily events.—The Bee.

The March of Science.

BALTIMORE, Jan. 12—A most remarkable electrical experiment was successfully exhibited at the college of physicians and surgeons last night. By means of a flexible rubber tube a diminutive electric light was introduced into the stomach of a patient. The lights were lowered and in the darkness over 2,000 students viewed the workings of the man's inside through the transparency the light created in the abdominal wall. The experiment has heretofore been regarded as an impossibility.

IT PAYS THE BEST AND IS THE SAFEST INVESTMENT I EVER MADE.

There are single retail shoe stores in our cities which sell 2,000 pairs of shoes a day, making a net profit of \$200,000 a year. We sell shoes, but we sell a great many pairs, the clear profit on our ladies', misses' and children's shoes is 1 cent on every pair, and on our men's and boys' shoes 1 cent a pair. We shall establish shoe stores in each of the fifty largest cities of the U. S., and if they sell only 300 pairs of shoes a day they will earn \$25,000 a year. We should be able to pay a yearly dividend of \$5.25 a share, or over 50 percent a year on the investment. We sell the stock at \$10 a share. The price must inevitably be much more than \$10 a share. No stock has ever been sold at less than this price, which is its par value. Stock non-assessable. Incorporated, Capital \$1,000,000. We have over 1,000 stockholders, and the number is increasing daily. Some of the principal stockholders are: T. S. Walling, N. Y.; J. J. Potter, Boston; N. A. Reed, Jr., Chicago; J. B. It is a necessity, and to meet the demands created by this necessity, THE COSMOPOLITAN MAGAZINE, giving yearly, as it does, 1536 pages of reading by the ablest living authors, with over 1200 illustrations by clever artists, has stepped into the breach, with a reduction in its price that has startled the literary world.

The HERALD, fully alive to the needs of its patrons, has made special arrangements with this superb monthly, whereby it will receive orders for yearly subscriptions to both publications combined for the sum of \$3.00.

The price of the great illustrated monthlies in the past has been \$3.00 and \$4.00 a year, and they were to be found only in the more pretentious homes.
